POINTMENT

TO HIS MAJESTY THE KING.

MAR 21 1917

**HARDY HERBACEOUS PERENNIALS
ALPINE AND ROCK PLANTS
HARDY FLORISTS' FLOWERS
BOG AND WATER PLANTS**

PRIMULA KNUTHIANA. See Page 46

Visitors will be cordially welcomed at all our Nurseries on all week days except Bank Holidays (see map opposite).

The various Branches are as follows :

**Royal Exotic Nursery,
544, King's Road,
Chelsea, London.**

Telephone: 1642, Western
Telegrams: Veitch, Chelsea

Stove and Greenhouse Plants, Orchids,
Palms, Ferns, Bay Trees in tubs, etc.

All requirements for London Houses
and Gardens.

**Coombe Wood,
Kingston Hill.**

Station—**NORBITON**
(L. & S. W. R., Kingston Line)
Cabs at the Station
Motor Bus (Service 85)

Hardy Ornamental Trees and Shrubs,
Avenue Trees, Yews,
American Plants, Climbers,
Rhododendrons, Conifers, Bamboos,
Hardy Water Lilies and
Aquatic Plants, etc.
Roses in Pots.

Langley, near Slough.

Station—**SLOUGH (G.W.R.)**
(1 mile to Langley
New Town Entrance)
Cabs at the Station

All descriptions of Apple, Pear and
Cherry Trees, Currants and
Gooseberries, Strawberries,

**Hardy Herbaceous Perennials,
and Alpine Plants,**

Roses in the Open Ground.

Feltham, Middlesex.

Station—**FELTHAM (L. & S. W. R.,
Windsor and Reading Line)**
10 minutes' Walk

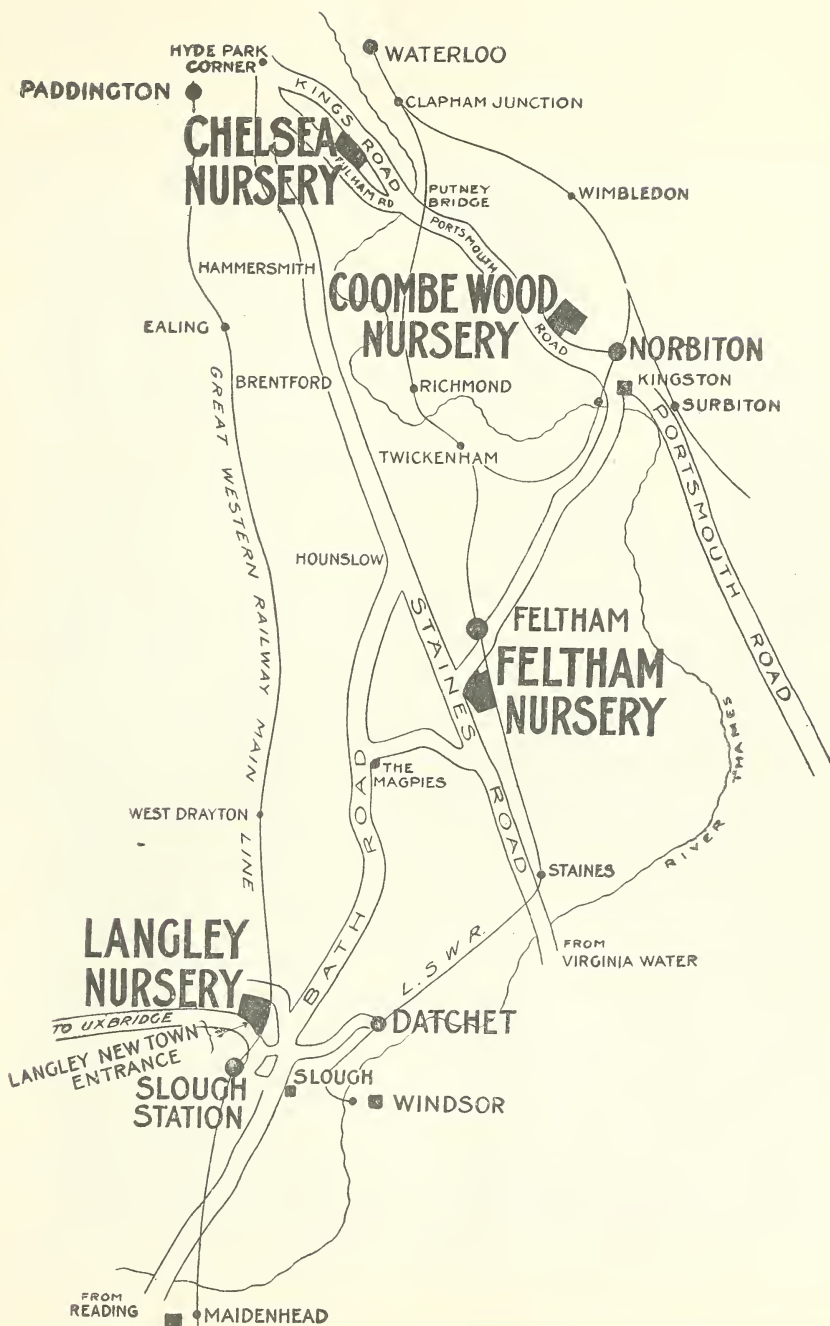

Trained Peaches, Nectarines, Apricots,
Plums, Cherries, etc., in all shapes and
varieties, Raspberries, Asparagus,
Sea Kale, Rhubarb, etc.

cent stock of Fruit Trees in pots
for the Orchard House.**

Begonias, Cannas, Carnations, Camellias,
Chrysanthemums, Dahlias, Gloxinias,
Fuchsias, etc.

Letters and remittances should be addressed to the Head Office
at Chelsea.

**JAMES VEITCH & SONS,
LTD.**

Iris growing by the water side

INTRODUCTION.

Size and Quality

In comparing prices we respectfully invite customers to compare also the **size** and **quality** of the plants supplied.

Our prices are for **strong** plants, which will give **good** results.

Specimen clumps of many kinds can be supplied at extra cost.

Visitors

We are always glad when customers are able to visit the Nurseries and satisfy themselves as to the **quality of our Stock**. There is no obligation to purchase unless visitors desire to do so.

Langley

In addition to the **Herbaceous** and **Alpine** plants the Langley Nursery is well worth visiting in the Summer for the **Roses** and **Fruit Trees**.

Position of Nursery

The Langley New Town entrance is one mile from Slough Station, G.W.R., just off the Uxbridge Road, turning North from the Great Bath Road, the London side of Slough. (See map overleaf.)

Advice

We shall always be glad to select varieties, if customers do not desire to make their own selection, and to advise on the treatment of Herbaceous Borders, Rock Gardens, etc., on receiving particulars of size, soil and situation.

Dozen Prices.

Unless otherwise stated plants quoted in this Catalogue at 6d. each are 5/- dozen

9d.	„	7/6	„
1/-	„	10/6	„
1/3	„	12/-	„
1/6	„	15/-	„

Not less than 6 plants supplied at the dozen price.

Special quotations for quantities on application.

Dormant Roots

Plants marked thus * can be supplied from October to January in a dry state at lower prices. (See Bulb Catalogue.)

Abbreviations

R=Rock Plants.
F.C.C.=First Class Certificate } R.H.S.
A.M. =Award of Merit. }

Cash Discount

Unless a special nett quotation has been given, Invoices over 20/- are subject to 5% for cash in one month.

Gratis Plants

Whenever the order permits it, **gratis plants** will be added, to help towards the cost of carriage.

HARDY HERBACEOUS PERENNIALS AND ALPINE PLANTS.

GENERAL COLLECTION.

R=Rock Plants.

		Month of Flowering	Average height		Price each.
			ft.	in.	
R	Acæna Buchananii , dense masses of blue-green foliage, reddish flowers	6—8		3	6d.
R	inermis , light green leaves on trailing stems, attractive	6—8		6	6d.
R	Novæ-Zelandiæ , a trailing plant with small grey leaves and whitish flowers	7—8		2	6d.
R	ovalifolia , more robust than the preceding	5—8		6	6d.
R	Acantholimon glumaceum (<i>Statice Araratii</i>), dark spiny foliage and rose-pink flowers	6—9		9	6d.
R	venustum , glaucous foliage, larger flower spikes than <i>A. glumaceum</i> , a rare species. F.C.C.	6—8		6	2/6
	Acanthus candelabrum , purple and white, very strong grower	7—9	2	6	6d.
	mollis latifolius , flower spike tall and handsome ; a noble plant, forming effective masses	7—9	2	6	6d.
	Perringii , heads of large bright rose-coloured flowers and handsome spiny foliage	8—9	1	6	1/6
	spinosus , the spiny-leaved species, beautiful glossy green foliage, and tall spikes of pale lilac flowers	7—9	2	6	9d.
	Achillea ægyptiaca (<i>taygetea</i>), golden yellow flowers, handsome silvery foliage	6—9	1	6	9d.
	alpina , flowers pure white, a first-class plant	7		2	9d.
R	argentea (<i>Tanacetum argenteum</i>), silvery foliage, flowers white	6—7		3	6d.
	buglossis (<i>lingulata</i>), large white flowers	6	1	6	9d.
R	Clavennæ , flowers white, plant dwarf, with heavy jagged foliage	6—8		1	9d.
	Eupatorium (<i>filipendulina</i>), large heads of handsome golden yellow flowers	7—10	4	6	9d.
	Millefolium rubrum , flowers red, produced in great profusion ; one of the best	5—8	1	9	6d.
	Cerise Queen , bright cerise and cherry-red in colour, strong grower	6—8	1	9	9d.
	Ptarmica , "The Pearl," numerous and dense masses of large double white flowers	7—9	2	6	6d.
R	rupestris , a dwarf species with umbels of pure white flowers	4—6		3	6d.
	serrata fl. pl. , semi-double, pure white flowers, leaves deeply cut, white and hairy	8—10	2	3	6d.
	speciosa , flowers white in large corymbs	6—7	4	5	9d.
R	tomentosa , profuse masses of yellow flowers ; neat and dwarf creeping habit	5—8		9	6d.
R	umbellata , leaves covered with silvery-white hairs, dwarf and effective, flowers white	7—9		6	9d.
	Aconitum Anthora , large yellow flowers	7—8	2		9d.
	autumnale (<i>Fischeri</i>), blue ; valuable for autumn flowering	8—10		3	6d.
	Hemsleyanum , a twining species. The flowers are of varying shades of purple and blue, and are freely produced on the upper portions of the stems. This plant should be allowed to ramble naturally	7—9		5	2/6

Aquilegia Veitch's Hybrids.

R=Rock Plants.

	Month of Flowering	Average Height ft. in.	Price each
Aconitum japonicum , numerous helmet-shaped intense blue flowers	7—9	5	6d.
Napellus , the common Monkshood, dark blue flowers in large terminal spikes	6—8	4	6d.
album , the white variety	6—8	4	6d.
bicolor , blue and white	6—8	4	6d.
ochroleucum (<i>orientale</i>), pale yellow flowers	6—8	4	6d. ³ / ₄
Wilsonii , pale blue flowers in large spikes, a fine species. A.M.	9—10	5	9d.
Actæa spicata rubra , clusters of bright red berries, on spikes, over-topping the foliage. F.C.C.	7—8	1 6	9d.
Adenophora Potaninii , pale blue bell-shaped flowers, in elegant slender spikes	7—8	1 6	9d.
R Adonis amurensis , deep yellow flowers, graceful fern-like foliage. A.M.	2—3	1	1/-
R fl. pl. , fine double yellow flowers. A.M.	2—3	1	1/6
R pyrenaica , large bright yellow flowers, strong grower. F.C.C.	4—6	1 3	1/-
R vernalis , brilliant handsome yellow flowers, 2 to 3 inches in diameter ; fern like foliage	4—5	1	6d. & 1/-
R wolgensis , flowers bright yellow	5—6	1	1/-
R Æthionema coridifolium , small rose-lilac flowers on miniature bushes	6—8	1	1/-
R grandiflorum , long clusters of bright pink flowers	6—8	1	9d.
R iberideum , small, spreading, shrubby, pale lilac	5—6	6	6d.
R stylosum , light pink	6	6	1/-
Agrostemma (<i>Lychnis</i>) coronaria alba , pure white	6—8	1 9	6d.

R=Rock Plants.

		Month of Flowering	Average Height. ft. in-	Price each.
	Agrostemma (<i>Lychnis</i>) coronaria purpurea , a handsome biennial, richest crimson	6-8	1 9	6d.
	Flos-jovis , rose-tinted, useful for cutting	6-8	9	6d.
	hybrida , (<i>Walkeri</i>), brilliant rose-crimson, suit- able for poor soils, useful for cutting	6-8	2	9d.
R	Ajuga metallica crispa , metallic-green crested foliage and blue flowers; useful for bedding	5-6	6	6d.
R	reptans atropurpurea , foliage dark bronzy-red; an excellent edging plant	5-6	6	6d.
R	variegata , variegated foliage	5-6	6	6d.
R	Alchemilla alpina , dark foliage with silvery edge, free and vigorous	4-5	6	6d.
	Aletris farinosa , tufts of spreading foliage; flowers in racemes, bell-shaped, white	5-6	1 9	1/-
	Allium			
	Alstrœmeria } see Bulb Catalogue			
R	Alyssum alpestre , a minute species greyish foliage with bright yellow flowers	6	2	9d.
	argenteum , silvery foliage with masses of bright yellow flowers	6	1	6d.
R	montanum , a dwarf Alpine, with yellow flowers and grey-green foliage	4-6	2	6d.
R	saxatile citrinum , lemon-yellow	3-5	8	9d.
R	compactum , masses of golden-yellow flowers, invaluable for spring bedding	3-5	8	6d.
R	fl. pl. , a double-flowered form	4-5	8	9d.
R	variegatum , leaves margined with yellow	3-5	9	9d.
R	serpyllifolium , silvery foliage and pale yellow flowers	4-6	2	9d.
R	spinosum , silvery foliage, white flowers	6-8	9	1/-
	Anchusa italica , strong-growing, flowering all the summer; blue, valuable for bees	5-8	3 6	6d.
	Droptmore Variety , a profusion of the deepest and brightest porcelain blue flowers	6-9	3 6	9d.
	Opal , pale-blue flowers in profusion	6-9	4	9d.
	myosotidiflora , a beautiful species with very bright blue flowers	4	1	1/6 & 2/6
R	Androsace arachnoides , umbels of pure white flowers, a very rare miniature species	4-6	3	2/6
R	carnea , free-flowering, one of the best, pink	3-5	6	9d.
R	eximea , an improved form of <i>A. carnea</i> with much larger flowers	3-5	3	2/6
R	Chumbyi Brilliant , a lovely Rock-Jasmine, brilliant cherry-rose	4-6	3	1/6
R	lanuginosa , flowers in umbels, of a rich rosy hue	6-9	6	1/-
R	Leichtlinii , long trailing stems with white silky foliage and numerous umbels of white flowers with pink centre. F.C.C.	6-8	6	1/6
R	primuloides , flowers rosy lilac a scarce variety	4	4	1/-
R	sarmentosa , very beautiful and distinct heads of pink flowers and tufts of silvery white leaves	5-6	6	9d.

Anemone japonica.

R=Rock Plants.

		Month of Flowering	Average Height.	Price each.
			ft. in.	
R	Androsace tibeticum , close tufts of foliage with pink and white flowers. A.M.	4	4	2/6
R	villosa , small grower, flowers white or pale rose	5-6	2	1/-
R	(<i>Douglasia</i>) Vitaliana , very dwarf, rich yellow	5-6	1	1/-
	The Androsaces all grow and flower freely in the fissures and cracks of the rockery.			
R	Anemone alpina , white, robust and free	4-5	1 6	9d.
R	sulphurea (<i>A. sulphurea</i>), flowers two inches in diameter, a beautiful soft sulphur, yellow	4-5	1 6	1/- & 1/6
R	*apennina , lovely sky-blue, compact habit	3-4	5	6d.
R	*alba , the white variety. F.C.C.	3-4	5	9d.
R	*blanda , large and finely-rayed flowers of a deep sky-blue, dwarf and hardy, the earliest of all, and one of the most beautiful of the genus	2-3	5	6d.
R	alba , the white variety	2-3	6	9d.
	*coronaria , many shades of colour, see Bulb Catalogue			
R	*fulgens , dazzling vermilion-scarlet with a jet-black centre; suitable for cutting. F.C.C.	3-5	1	6d.
R	*Aldboro' variety , like the type but larger, longer and broader petals, more highly coloured	3-5	1	6d.
R	*fl. pl. , the double variety; very showy, numerous narrow scarlet petals	3-5	1	6d.
R	*grandiflora , a magnificent variety; the same colour as <i>fulgens</i> , but superior in size, having much broader, rounded petals	3-5	1	9d.

R=Rock Plants.

	Month of Flowering	Average Height. ft. in.	Price each.
R Anemone fulgens * multipetala , several rows of narrow bright scarlet petals	3—5	1	6d.
Hepatica , see <i>Hepatica</i> , page 31			
japonica , rich carmine within and rose without, with a tuft of golden anthers, see illustration	7—10	1 9	6d.
alba (<i>Honorine Joubert</i>), highly decorative and invaluable for cutting	7—10	1 9	6d.
Alice , carmine-rose, lilac-rose centre	7—10	2 6	1/-
crispa , rose-coloured flowers, deeply frilled foliage	9—10	2 0	9d.
elegantissima , delicate satiny rose semi-double flowers	7—10	2 6	6d.
Enchantment , double cream-white flowers, outside of petals pink	7—10	2 6	2/-
Géante des Blanches , very large silvery-white flowers, the best white	7—10	2 6	9d.
Kriemhilde , semi-double, flowers 3 to 4 inches diameter, bright reddish colour	7—10	2 6	9d.
Lady Ardilaun , pure white, stronger habit, larger leaves and flowers than the variety <i>alba</i>	7—10	2 0	6d.
Lorley , lilac-rose, darker than <i>Queen Charlotte</i> , very free-flowering	7—10	3	9d.
Mont Rose , semi-double clear rose, A.M.	7—10	1	9d.
Prince Heinrich , a very fine double flower, a lovely deep pink	9	2 6	9d.
Queen Charlotte , semi-double, delicate silky rose, darker reverse. A.M.	7—10	3	9d.
rosea , pale rose, showy and free-flowering	7—10	1 9	6d.
superba , large delicate rose flowers on rigid stems	7—10	3	9d.
Whirlwind , semi-double, white	7—10	1 9	6d.
R narcissiflora , white, with yellow stamens	4—5	9	9d.
R * nemorosa alba plena (Double White Wood Anemone), flowers produced in great profusion very early in the spring	3—5	8	6d.
R * Robinsoniana , sky-blue	3—5	8	6d.
R * rosea , rose-pink	3—5	8	6d.
R* palmata , large handsome flowers of a glossy golden yellow, thick leathery foliage	5—6	9	9d.
R alba , pure white form of (<i>A. palmata</i>)	5—6	9	6d.
R pennsylvanica , large white flowers	5—6	1 6	9d.
R Pulsatilla (The Pasque Flower), deep purple, with long silky hairs on the exterior	3—4	9	6d.
R alba , a white variety of the Pasque Flower	4—5	1	1/-
R * ranunculoides , very distinct clear golden-yellow	3—4	6	6d.
rivularis , white with purple anthers; requires a damp situation	5—6	1 3	9d.
* stellata (<i>hortensis</i>) (Peacock Anemone), see Bulb Catalogue			
R syvestris (Snowdrop Windflower), large white flowers, particularly free and showy, invaluable for cutting	4—5	1 3	6d.
R flore pleno , a double flowered form with pure satiny white flowers. A.M.	4—5	1 3	9d.

Arenaria montana in a Rock Garden.

R=Rock Plants.

		Month of Flowering	Average Height.	Price each.
			ft. in.	
R	Anemone vernalis , a dwarf species, white tinted with purple	3—5	6	1/-
	vitifolium tomentosa pale pink flowers	7	3	2/6
	Anemones (our selection), 5/-, 7/6 and 10/6 per doz.			
	Anemonopsis macrophylla , pale lilac inside, deep purple outside, loose racemes	6—8	1 3	2/6
R	Anthemis Aizoon (<i>Achillea ageratifolia</i>), dwarf compact silvery tufts of foliage	7—8	6	9d.
	macedonica , large pure white flowers	7—8	1 8	9d.
	tinctoria , yellow	6—9	1 3	6d.
	Anthericum graminifolium (<i>ramosum</i>), grass-like foliage, flowers white, rapid and graceful grower	6—9	2 6	6d.
	Liliago (St. Bernard's Lily), pure white starry flowers in spikes	5—7	1 6	9d.
	Liliastrum (<i>Paradisea liliastrum</i>) (St. Bruno's Lily), a pretty plant with broad grassy leaves, sweet-scented flowers, with a small green dot on each segment	5—7	2—6	6d.
	giganteum , a first class perennial in all ways larger than the type	5—7	3	1/6
	majus (<i>algeriense</i>), flowers much larger than the type, a most desirable plant	5—7	2 6	9d.
R	Anthyllis montana , dwarf, hairy foliage, bright pink pea-shaped flowers	6—7	6	9d.
R	Aquilegia alpina , blue and white	5—6	1 9	9d.
	californica (<i>formosa</i>), large reddish orange and yellow flowers	5—7	2 3	9d.
	canadensis , brilliant scarlet sepals, pale yellow petals ; a pretty contrast	5—7	1 9	9d.
	chrysantha (Golden Columbine), produces for 2 months continuously, flowers of a beautiful yellow ; its spur is most delicate, often 2 inches in length	5—7	2 9	6d.
R	cœrulea , lovely blue and white flowers 2 to 3 inches long. F.C.C.	5—7	1 9	9d.
R	glandulosa , a lovely dwarf plant, producing large and exquisitely tinted blue and white flowers	5—6	1	9d.
	sibirica , flowers double, a rich blue, free and showy	5—7	2	9d.
R	Stuartii , (<i>A. glandulosa</i> × <i>A. Wittmanniana</i>) resembling <i>A. glandulosa</i> , but much larger and more free-flowering ; the flowers, often 4 inches across, are born on stout stalks ; undoubtedly one of the handsomest and most attractive of the genus. A.M.	5—7	1 3	1/6
	Veitch's hybrids , a strain of exquisite colouring, producing in immense quantities, pink, yellow, blue and lavender flowers, in all shades (see page 5).	5—7	2 9	9d.
	vulgaris , good mixed varieties	5—7	2 3	6d.
	alba , a good white	5—7	2 3	6d.
	6 distinct Aquilegias (our selection) ... 4/- (in 6 distinct varieties) 7/6			
R	Arabis albida variegata , a fine edging plant	3—5	6	6d.
R	fl., pl. , pure white double	3—5	1	6d.
R	fl., pl., variegata , a variegated form of the double white, foliage marked yellow and green	5—6	6	9d.
R	alpina , masses of white flowers early in spring	3—5	8	6d.
R	aubrietoides , stout spikes, pale pink, very compact.	5—6	6	9d.
	A. M.			

Astilbe grandis.

R=Rock Plants

		Month of Flowering	Average Height.		Price each.
			ft.	in.	
R	<i>Arabis lucida variegata</i> , dark glossy foliage with golden edge, excellent for edging	3-5	3		9d.
R	<i>rosea</i> , pretty rose coloured flowers, invaluable for the rockery	5-8	6		9d.
R	<i>Arenaria balearica</i> , white starry flowers, borne above dense tufts of foliage, invaluable for the rockery	5-7	2		6d.
R	<i>cæspitosa</i> , leafy stems small white flowers	6-7	3		6d.
R	<i>graminifolia</i> , grass like tufts of foliage covered with white flowers	6-7	8		9d.
R	<i>laricifolia</i> , white flowers	5-6	6		9d.
R	<i>montana</i> , white, a most useful rock plant. See illustration, page 9.	5-7	2		9d.
R	<i>purpurascens</i> , purple flowers, a tufted dwarf plant that may be mixed with Saxifrages on the rockery	6-7	3		9d.
R	<i>Armeria bracteata rubra</i> , bright crimson, bracts 1 to 2 inches long	5-7	6		9d.
R	<i>cæspitosa vera</i> , pink flowers, the true type which is very rare	5	3		2/6
R	<i>Celphalotes (latifolia)</i>	5-7	1		6d.
	<i>alba</i>	5-7	1		9d.
	<i>rubra</i>	5-7	1		6d.
R	<i>Laucheana</i> , very free and showy, quite the finest for edging borders 3/6 per doz., 20/- per 100	5-7	9		

Aubrietia deltoidea græca.

		7—8	3	6d.	
	syriaca (<i>Cornutii</i>),	light purple, sweet scented, in large drooping umbels			
		7—8	3 6	9d.	
	tuberosa ,	numerous heads of bright orange flowers			
		8—9	1 6	6d.	
R	Asperula hirta ,	neat compact tufts of foliage studded with white flowers			
		7—9	3	9d.	
R	odorata (Sweet Woodruff),	snowy-white in terminal corymbs			
		5—6	6	6d.	
R	suberosa ,	silvery foliage and pretty pink flowers			
		6—7	3	9d.	
	Asphodelus albus ,	numerous white flowers borne on stems, foliage light and graceful			
		5—7	3 6	9d.	
	luteus ,	bright yellow flowers and glaucous foliage; a useful border plant			
		5—7	2 9	6d.	
R	Aster alpinus ,	large, pale blue			
		5—6	6	6d.	
R	albus ,	a pure white variety of the preceding			
		5—6	6	6d.	

R=Rock Plants.

		Month of Flowering	Average height.	Price each.
R	Aster alpinus, roseus , a pink-flowered variety ; useful for contrast	5—6	ft. in. 6	9d.
R	speciosus , flowers 2 to 3 inches in diameter, rich lilac. F.C.C.	5—6	9	1/-
R	diplostephioides , large lilac-blue flowers	5—6	1 6	9d.
R	ptarmicoides , white, neat dwarf bushy habit	9	1 6	6d.
R	Purdomii (Veitch).—Flowers very freely, rich blue-mauve, stamens orange-yellow. A.M.	5	9	2/6
R	sub-cæruleus , very large lavender-blue flowers on branching stems	5—9	1 6	6d.
	Asters (Michaelmas Daisies), see page 60			
	Astilbe Arendsii Ceres , well-branched spikes of rosy-lilac flowers. A.M.	7—8	2 9	1/6
	Pink Pearl , thick pyramidal spikes	7—8	2	1/6
	Salmon Queen , bright salmon-pink, spikes thin and very graceful	7—8	2 6	1/6
	Venus , rosy-purple, early-flowering	7—8	2 9	1/6
	chinensis , spikes of light pink flowers, elegant for cutting. F.C.C.	8—9	2 6	9d.
	Davidii , graceful spikes of deep rose-violet flowers, elegant tufted foliage. F.C.C.	8—9	6	9d.
	grandis (Veitch), White flowers. More vigorous than <i>Davidii</i> , suitable for moist grounds and heavy soils. A.M.	8—9	6	1/-
	hybrida rubra , pink spikes in beautiful contrast to dark stems	7—8	3	1/-
	Silver Sheaf , panicles of white spiræa-like flowers	7—8	2 6	6d.
	japonica , see <i>Spiræa japonica</i>			
	rivularis (Goat's Head), white, tall plumes above handsome foliage ; suitable for grouping by water	7—8	3	1/-
	Thunbergii , numerous panicles of flowers resembling a <i>Spiræa</i> ; extremely free and graceful	7—8	2	9d.
R	Astragalus hypoglottis albus , numerous white papilionaceous flowers ; pretty for a border or rockery	5—6	2	6d.
	Astrantia carniolica , very curious white flowers enclosed in bracts	6—7	1	9d.
	major , curious pink flower heads	5—6	2	6d.
R	Aubrietia deltoidea , varieties.	3—5	6	6d.
R	Bridesmaid , large delicate soft blush	4—6	3	9d.
R	Campbellii (Improved), deep violet	3—5	6	6d.
R	Crimson King , deep crimson, very free	4—6	3	9d.
R	Dr. Mules , large, dark violet ; one of the best	3—5	6	9d.
R	Fire King , bright crimson	3—5	6	9d.
R	græca , pale purple (see page 12)	3—5	6	6d.
R	Hendersonii , dark purple	3—5	6	9d.
R	H. Marshall , dark mauve flowers. A.M.	3—5	6	6d.
R	Lavender , pale lavender, late flowering. A.M.	3—5	6	9d.
R	Leichtlinii , rose-crimson. A.M.	3—5	6	6d.
R	Lilac Queen , large, soft lilac, a charming colour	3—5	6	9d.
R	Moerheimii , very fine, pink	3—5	6	9d.
R	Mrs. E. M. Crosfield , rich violet-blue, flowers large	5—7	6	9d.
R	Prichard's A.1. , dark purple, individual flowers large. A.M.	4—5	6	9d.
R	Purple Robe , rich purple, showy	4—5	6	9d.
R	purpurea , rich dark purple	3—5	6	6d.
R	argentea variegata , variegated form. F.C.C.	3—5	6	6d.

R=Rock Plants.

		Month of Flowering	Average height. ft. in.	Price each.
	Aubrietia purpurea aurea variegata , golden-variegated foliage, purple flowers	3—5	6	9d.
R	Souvenir de W. Ingram , large, deep reddish-rose	3—5	6	9d.
R	taurica albida , on first opening the flowers are white, afterwards they turn pink	3—5	6	9d.
R	Wallacei , perpetual-flowering, fine deep violet	3—11	6	6d.
R	Auricula , see page 62.			
	Bambusa , see Catalogue of Hardy Trees and Shrubs.			
	Baptisia australis , racemes of blue, pea-shaped flowers, with strong tufts of trifoliate leaves	6—7	3	9d.
	Barbarea vulgaris fl. pl. , double, yellow, in massive spikes, prefers moist conditions	6—7	1 6	9d.
	Bedding Plants , see page 91.			
	Bellis perennis (Daisy)—			
	aucubæfolia	4—5	6	
	crimson			
	double white			
	Rob Roy			
R	Bellium minutum , a distinct Alpine Daisy of neat habit with small pale lilac flowers	5—9	3	9d.
	Betonica grandiflora , see <i>Stachys grandiflora</i> , page 53.			
	Bocconia cordata , numerous spikes of cream-coloured flowers, very effective	6—8	5 0	6d.
	microcarpa , terra-cotta-yellow in terminal panicles; foliage elegantly lobed, white beneath	6—8	4 0	9d.
	Bog Plants , see page 89.			
	Boltonia asteroides , star-like pinkish-white flowers	8—9	4 6	6d.
	latisquama , white, 1½ inch across, on much-branched stems; useful for cutting	8—9	6	6d.
	Bupthalmum salicifolium , golden-yellow	6—7	2	6d.
	speciosissimum (<i>Telekia</i>), large yellow flowers	6—8	3 6	9d.
	* Calandrina umbellata , bright showy magenta-crimson flowers	5—9	9	9d.
	* Calla palustris albo-maculata , deep glossy green foliage, handsomely spotted with white	6—7	2 6	9d.
R	Callirhoe involucrata , a trailing plant, bearing a profusion of violet-crimson flowers	6—9	4	9d.
R	lineariloba , compact, prostrate, very floriferous; flowers large, deep purple and white	6—9	4	9d.
	Caltha palustris (Marsh Marigold), suitable for the margins of streams, producing abundance of golden-yellow flowers	4—5	9	6d.
	monstrosa plena , rosettes of double golden flowers	4—5	9	9d.
	Calystegia pubescens plena , large double pale rose flowers, borne in great profusion. It flowers for several months, and is one of the best and showiest of hardy climbers	6—9	7 0	6d.
R	Campanula abietina , dwarf and neat, producing deep purplish-blue flowers in great profusion. A.M.	6—7	10	9d.
R	Allionii , a dwarf alpine species, bearing large blue or rarely white flowers above a rosette of leaves, succeeds in an exposed situation, in a well-drained soil	5—7	9	1/6
R	carpatica , large and erect, light blue; useful for edgings, very floriferous	5—7	9	6d.
R	alba , the white variety	5—7	9	6d.

R=Rock Plants.

		Month of Flowering	Average Height.	Price each.
R	Campanula carpatica pelviformis , fragrant pale blue flat flowers	5—7	1 3	9d.
R	Robert Parker , an improved form with deep blue flowers	5—7	9	9d.
R	Riverslea , deep blue; a vigorous grower. A.M.	5—7	1 3	9d.
R	turbinata , large, erect, very fine	6—7	6	9d.
R	alba , large white flowers, very conspicuous on dwarf masses of dark green foliage	6—7	6	2/6
R	collina , dwarf, deep blue flowers	7—8	1	1/-
R	Erinus , pretty lavender-blue starry flowers	6—8	6	9d.
R	Fergusonii , large cup-shaped pale blue flowers, A.M.	7—8	2	1/-
R	fragilis , large blue flowers on trailing stems, suitable for basket work, somewhat tender	6—7	6	9d.
R	garganica , branching peduncles of pale blue flowers, habit prostrate	6—8	3	9d.
R	alba , a white form of the preceding	6—8	3	1/-
R	hirsuta , pale blue flowers, foliage very hairy	6—8	3	9d.
R	alba , a pure white form of the well-known type, a most useful rock plant	6—8	3	1/-
R	G. F. Wilson , intense purplish blue, salver-shaped flowers	6—8	3	6d.
R	glomerata acaulis , dense tufts of foliage with large heads of rich blue flowers	6—8	4	9d.
	alba , a pure white form	5—7	1	1/6
	dahurica , clusters of flowers, rich deep blue, easiest culture, very effective	5—7	1 3	9d.
	pallida , a choice variety with pale blue flowers	5—7	1 3	1/-
	grandis (latiloba) , long, widely open blue flowers	6—7	2 3	6d.
	alba , the white variety	6—7	2 3	6d.
R	haylodgensis fl. pl. , flowers blue, trailing habit, requires a dry position	5—8		2/6
	Hendersonii , flowers very large and numerous, of a beautiful mauve tint; one of the best. F.C.C.	6—7	1	9d.
R	Hostii alba , a white form of <i>C. Hostii</i>	7	1	9d.
R	hybrida Isabel , flowers open flat, deep rich blue. A.M.	5—9	1	9d.
R	White Star , similar in form to the well-known <i>C. carpatica</i> , <i>Riverslea</i> . A.M.	5—9	1	9d.
R	isophylla , bright light blue flowers; trailing habit	7—8	6	6d.
R	alba , bell-shaped flowers of the purest white. F.C.C.	7—8	6	6d.
R	Mayi , a hybrid with pale-blue saucer shaped flowers and greyish leaves	7—8	6	9d.
	lactiflora , milk-coloured, tinged with blue, erect in loose panicles	7—8	4 6	1/-
	latifolia , strong erect stems, large drooping blue flowers, very free and effective	6—7	2 6	6d.
	alba , the white variety	6—7	2 6	9d.
	macrantha , large purplish blue flowers, vigorous and showy, one of the best	6—7	4	9d.

R=Rock Plants.

		Month of Flowering	Average Height.	Price each.
	Campanula Medium calycanthema , blue, purple, mauve, rose, white. Handsome varieties of the Canterbury Bell, with large coloured calyx of the same hue as the trumpet			
	3/- per doz.	6-7	2	6d.
R	muralis (<i>Portenschlagiana</i>), densely-tufted, small bright green leaves, a profusion of light blue flowers	6-8	5	6d.
R	bavarica , a stronger grower than the type, deep blue flowers	6-8	6	9d.
R	nitida (<i>planiflora</i>), dark evergreen foliage growing in whorls, blue flowers	7-9	9	9d.
R	alba , a pure white form of above	7-9	1	9d.
	nobilis (<i>punctata</i>), large drooping flowers, white spotted with red, very distinct	5-7	1	9d.
	persicifolia , blue, showy and effective	6-8	2	6d.
	fl. pl. , double blue	6-8	2	9d.
	alba , pure white, large and fine, useful for cutting	6-8	2	6d.
	grandiflora . A.M.	6-8	2	9d.
	fl. pl. , double white, very floriferous, one of the best and purest	6-8	2	9d.
	Moerheimii , large semi-double white flowers. A.M.	6-7	2	9d.
	humosa , immense double blue flowers, sturdy habit	6-7	3 3	1/-
	phycitocalyx (<i>amabilis</i>), a fine species, bright blue flowers. A.M.	6-7	2	9d.
R	Profusion , large deep blue bells. A.M.	5-9	6	1/-
R	pulla , a neat little Alpine with drooping dark blue flowers	6-7	3	9d.
R	pulloides , beautiful violet-purple	7-9	6	1/-
R	pusilla (<i>pumila</i>), dwarf, neat and compact	6-7	3	6d.
R	alba , the white variety	6-7	3	6d.
	pyramidalis , strong spikes covered with blue flowers	7-8	5 6	6d.
	alba , the white variety	7-8	5 6	6d.
	compacta , dwarfer than the type, larger flowers	7-8	3 6	9d.
	alba , habit of the preceding, flowers pure white	7-8	3 6	9d.
R	Raineri , a compact mass, exceedingly pretty; a good rock plant	5-7	6	1/6
R	Standfieldii , a hybrid with large deep blue flowers, very free blooming	7-8	6	1/-
R	Stevensii nana , flowers pale blue, a charming rockery plant. A.M.	5	6	1/6
	Trachelium alba plena , double white, free	6-7	2	9d.
	Van Houttei , flowers very large and long, of a beautiful blue, one of the best	7-8	2	6d.
	pallida (<i>Burghaltii</i>), a paler tint than type, very pretty	7-8	2	6d.
	Six Choice and Distinct Campanulas, our selection, 4/- ;			
	12 ditto, 7/6.			
R	Cardamine pratensis plena , a double variety of the Cuckoo flower	4-5	9	6d.
R	trifolia , white flowers, trilobed leaves	4-5	9	9d.
	Carnations , see page 62			
	Catananche cœrulea , numerous heads of blue flowers; very useful for borders or shrubberies	7-9	2	6d.
	bicolor , white, shaded with blue	7-9	2	6d.

R=Rock Plants.

	Month of Flowering	Average Height	Price each.
Centaurea dealbata , silvery foliage, rose-pink flowers	7—8	1 3	6d.
glastifolia , large globular heads of golden yellow flowers, very good for cutting	7—9	5	9d.
macrocephala , very striking, large deep yellow flowers, produced in profusion	7—9	3 6	9d.
montana , large blue flowers; very useful for cutting	5—9	1 9	6d.
alba , the white variety	5—8	1 9	6d.
rubra , the red variety	5—9	1 9	6d.
ruthenica , elegant straw, or sulphur-yellow flowers, fern-like foliage	6—8	3	6d.
Centranthus ruber (Red Valerian), large heads of bright red flowers; useful border plant	6—9	2 6	6d.
albus , similar to above but with white flowers	6—9	2 6	6d.
coccineus , vivid crimson, very effective for massing in the border	6—9	2	1/-
Cephalaria alpina , handsome yellow flowers, as large as <i>Scabiosa caucasica</i> , very fine	5—8	4	1/-
R Cerastium arvense compactum , close prostrate green foliage, with masses of white bloom in early summer, a fine plant for banks and bedding	6—7	9	6d.
R Biebersteinii , closely allied to <i>C. tomentosum</i> , but with larger leaves and flowers	6—7	9	6d.
R tomentosum , greyish white foliage and white flowers; useful for edging	6—7	9	6d.
R Chamaelirium carolinianum , dense masses of white flowers, suitable for damp shady place on rockery, requires peat soil	6—7	6	1/6
R Cheiranthus alpinus (Alpine Wallflower), light yellow	5—6	6	6d.
Cheiri (Single Wallflower), crimson or yellow, 2/- per doz., 10/- per 100	5	1 6	9d.
luteus plenus (Double Yellow Wallflower)	3—4	1	9d.
purpureus plenus , (Double Purple Wallflower)	3—4	1	9d.
R "Harpur Crewe," double yellow, flowers, small and numerous	4—5	1	6d.
Chelone (<i>Pentstemon</i>) barbata , bright scarlet tubular flowers	6—9	2	9d.
obliqua , numerous terminal spikes of rich deep pink flowers	6—9	3 6	6d.
alba , the white variety	6—9	3 6	6d.
Chrysanthemum latifolium (<i>lacustre</i>), flowers 2½ inches across, white with yellow centre; one of the most effective plants for autumn decoration	8—10	4	6d.
maximum (true), large white flowers in profusion; one of the best border plants	7—8	2	6d.
G. H. Sage , large white flowers with frilled ray florets; very distinct	7—8	2	6d.
Kenneth . White flowers on long single stems, narrow wavy petals, very distinct form	7—8	3	1/-
King Edward , white Marguerite-like flowers, 4 or 5 inches diameter, dark green foliage	8—10	2 6	9d.
Mrs. Charles Lowthian Bell , white flowers, 6 to 7 inches diameter, freely produced, very early	6—9	1 6	9d.

R=Rock Plants.

		Month of Flowering	Average Height	Price each.
	Chrysanthemum Triumph , a hybrid between <i>C. maximum</i> and <i>C. lacustre</i> . The flowers are large, with pure white broad rays ; one of the best	7—8	2	9d.
	uglinosum , see <i>Pyrethum uglinosum</i> , page 46			
R	Chrysobactron , (<i>Bulbinella</i>) Hookeri , a Liliaceous plant with long linear leaves and stout flower stems, thickly set with bright yellow flowers ; requires a deep moist soil	5—6	2 3	1/-
	Chrysocoma (<i>Aster</i>) Linosyris (Goldy-locks), dense heads of bright yellow flowers, neat and attractive habit	8—9	2	6d.
	Cimicifuga cordifolia , an effective border plant, white flowers on erect stems, heart-shaped leaves	8—10	3	1/-
	japonica , panicles of white flowers	8—10	1 6	9d.
	racemosa , a robust plant with feathery drooping racemes of white flowers 1 to 3 ft. long	7—8	4	9d.
	simplex , white flowers in spikes 6 or more inches in length	10—11	2 6	1/-
R	Cistus , see Catalogue of Hardy Trees and Shrubs.			
	Clematis heracleæfolia Davidiana , whorls of sweetly scented pale blue flowers	6—8	3	9d.
	erecta , (<i>recta</i>), erect bush covered with small white flowers	6—9	3	9d.
	fl. pl. , double white flowers. F.C.C.	6—9	3	1/6, 2/6
	integrifolia , a good species with small deep blue flowers	6—9	2	9d.
R	Codonopsis ovata , large bell-shaped flowers of a beautiful metallic blue, veined and blotched with white and yellow	6—7	1	9d.
R	Conandron ramondiodes , varies from white to lilac and with purple eye, branching stems. Requires a damp shady situation	6—8	6	2/6
	Convallaria majalis (Lily of the Valley), see Bulb Catalogue.			
R	Convolvulus althæoides , red or lilac flowers borne on trailing stems, shining silvery leaves	6—9	2 6	1/-
R	Cneorum , a shrubby species with silvery grey foliage, bluish white flowers, sheltered position best	5—6	2 6	1/-, 1/6
R	mauritanicus , a trailing plant, bright blue flowers	6—7	9	6d.
	Coreopsis grandiflora , flowers produced in great profusion, 3 inches in diameter, bright golden yellow	6—9	3	6d.
	lanceolata , rich yellow blossoms on slender stalks	6—9	2	6d.
	verticillata , a slender plant with whorls of narrow leaves and rich golden yellow flowers about an inch in diameter	6 -9	1 9	9d.
	Coriaria japonica , somewhat shrubby, abundance of reddish-brown berries on long arching sprays. A.M.	9—10	4	1/6
	terminalis , bright yellow berries. A.M.	9—10	4	1/6
R	Coronilla iberica , (<i>cappadocica</i>), a trailing plant bearing abundance of yellow pea-shaped flowers	5—9	6	9d.
R	minima , fragrant yellow flowers, procumbent habit, a charming rock-plant	5—9	6	1/
R	varia , white and pink flowers all through the summer	5—10	1 9	6d
R	Corydalis lutea , graceful masses when grown in the crevices of walls, numerous spurred yellow flowers	5—8	9	6d
R	nobilis , yellow tipped with brown, very beautiful	5—7	1 3	9d.

R=Rock Plants.

		Month of Flowering	Average Height. ft. in.	Price each.
	Crambe cordifolia , one of the finest large-leaved herbaceous plants, striking and bold, white flowers in profusion	5—6	6 6	1/- 9d.
	Crinum *capense. A.M. *album } Very handsome bulbous plants			9d.
	*Moorei , F.C.C. } with white or light pink flow- }	7—9	2 6	2/6 2/- 1/6
	Powellii , F.C.C. } *album. A.M. } ers borne on stout scapes			
R	Crucianella (Phuopsis) stylosa , heads of bright pink flowers	6—8	9	6d.
R	Cyananthus lobatus , creeping dainty blue flowers	7—9	4	1/-
R	Cyclamen africanum , large bold foliage, red and white flowers	9	6	9d.
R	*Atkinsonii album (ibericum) , pure white flowers produced freely in winter, perfectly hardy	2—4	5	1/-
R	*roseum , rose, foliage beautifully marbled	2—4	5	6d.
R	*Coom , deep crimson flowers, with dark plain foliage	1—3	5	9d.
R	*europæum , purplish rose, one of the best of the hardy species, succeeds in almost any soil or situation			6d.
R	*album , the white variety	8—10	6	1/-
R	*neapolitanum , leaves zoned with white, rose-pink flowers			6d. 9d.
R	*repandum , very pretty, slightly tender	5—6	3	
	Cypripedium acaule (humile) , large purple and rose-purple flowers, the slipper being often 2 inches in length, rare, perfectly hardy	5—6	10	1/6
	Cypripedium Calceolus , sepals and petals dark brown, slipper clear yellow, an inch in length; requires a warm sheltered position on calcareous soil or on limestone rock	5—6	1 3	1/-
	macranthos , large flowers of a deep purplish rose veined with a darker tint; requires a well-drained loam, sheltered situation; should be kept dry in winter	6	1	2/6
	parviflorum , sepals and petals brown, slipper bright yellow; delicate and handsome	6	1 3	1/6
	pubescens , greenish yellow sepals and petals spotted with brown, slipper sulphur yellow, often 2 inches long; will grow and flower freely in peat-soil in a shaded border	5—6	1 9	1/6
	spectabile , sepals and petals white, slipper rounded and inflated, pale rose, about 1½ inches long; grows and flowers freely in almost any shady border in peat and leaf-mould	6	2	2/6 to 5/-
	Dactylis glomerata variegata , a highly ornamental variegated grass, very useful for edging	7—8	6	6d.
	Deinranthe cœrulea , rich purple flowers, good foliage, a Chinese plant requiring peat and shade	6	1	7/6 & 10/6
	Delphinium Brunonianum , rather rare, has a musky odour. flowers large, light blue, which deepens to purple at the margins	7	1 6	9d.
R	cardinale , beautiful and elegant, large bright scarlet flowers	7—8	2	9d.
	cashmirianum , flowers an inch in diameter; pale bluish purple, borne in terminal corymbs of six or eight	6—7	1 4	6d.

Foxgloves (*Digitalis*)

R=Rock Plants.

		Month of Flowering	Average Height	Price each.
	Delphinium chinense (<i>grandiflorum</i>), stems branching, terminating in clusters of blue flowers	6—7	ft. in. 1 3	6d.
	formosum , deep blue, very free, forming strong clumps, valuable for cutting	6—7	3 6	9d.
	grandiflorum album , satiny white flowers, freely produced, very showy	6—7	2	9d.
	Cineraria , intense blue spikes of upright expanded flowers entirely devoid of the characteristic spur, habit very compact	6—8	2	1/-
	plenum (Double Siberian Larkspur), a lovely bright blue, extremely beautiful and rare	6—7	2 3	3/6
R	nudicaule , orange scarlet, very distinct	6	1 6	6d.
	sulphureum , a remarkable species of branching habit, with stiff wiry stems covered with sulphur-yellow flowers	7—8	3 6	9d.
	trolliifolium , bright blue flowers with white centres borne in loose racemes	5—6	3	9d.
	Florist's Varieties , see page 63			
	Dendromecon rigidum , large yellow poppy-like flowers very handsome. Thrives well in positions that suit <i>Romneya Coulteri</i> . A.M.	6—9	5	5/- & 7/6
	Dentaria (<i>Cardamine</i>) digitata , rose-pink	4—5	1	9d.
R	Dianthus alpinus , flowers about an inch in diameter; rose spotted with crimson, produced in profusion	5—6	4	9d.
R	albus , a variety of the Rock-Pink, large pure white flowers on dense tufts close to the ground	6—7	3	1/-
R	arenarius , flowers white with a purple spot and pressed purple hairs, margins fringed	6—7	6	6d.
R	arvernensis , clear rose-coloured flowers, neat glaucous foliage	5—6	3	1/-
R	Atkinsonii , deep crimson	6—7	6	1/6
R	barbatus , (Sweet William) masses of flower of the most vivid and brilliant colours 2/6 per doz. 15/- per 100	6—7	1 6	—
R	magnificus , the very fine old double crimson (Sweet William)	6—7	9	9d.
R	cæsius , rose-coloured, very fragrant	6—7	6	6d.
R	cinnabarinus , bright cinnabar-red flowers, a very rare species	6	1	3/6
R	cruentus , red-crimson flowers on slender stems	5—6	1	9d.
R	deltoides , white or pink spotted flowers, produced freely on erect stems; useful for the border or rockwork	6—8	9	6d.
R	albus , similar to the type but has white flowers	5—8	9	6d.
R	fragrans , white, suffused with purple, very fragrant	5—6	9	9d.
R	glacialis , rosy crimson, a beautiful Alpine "Pink"	5—7	3	9d.
R	Knappii , clear sulphur-yellow, borne in terminal clusters of from five to nine	6—7	9	1/-
R	microlepis , a miniature rock-Pink. The plant is scarcely an inch high, while the white flowers with rosy lilac spots are $\frac{3}{4}$ inch diameter	6—9	1	2/6
R	Napoleon III. , brilliant scarlet, undoubtedly the best of the Mule Pinks	5—6	6	9d.
R	neglectus , bright deep carmine-rose, serrated petals, a charming rock-plant	6—9	3	9d.
R	plumarius , single purple, the edges of the petals much crenated; grows naturally in the crevices and cracks of old walls	5—6	6	6d.
R	sylvestris , petals red with crenate edges	6—7	1	9d.

Cut spikes of *Eremurus* with a groundwork of *Paeonies*.

R=Rock Plants.

		Month of Flowering	Average Height.	Price each.
	Dictamnus caucasicus (The Burning Bush), larger than <i>D. Fraxinella</i> in foliage and bloom spike. A.M.	6—7	ft. in. 2 6	1/-
	Fraxinella , dense tufts of large pale purple flowers, very handsome	6—7	1 9	9d.
	albus , the white variety	6—7	1 9	9d.
R	Dielytra (<i>Dicentra</i>) eximia , graceful racemes of purplish-red flowers; a fine hardy perennial	6—9	1 3	9d.
	*spectabilis , rose-pink, long and graceful drooping racemes	6—9	1 3	9d.
	alba , the pure white variety	6—9	1 3	1/-
	Digitalis grandiflora (<i>ambigua</i>), large bell-shaped yellow flowers	6—7	3 6	6d.
	Veitch's Spotted , pure white, spotted purple. A.M. See illustration page 20	6—7	3 6	6d.
	purpurea (Foxglove), purple spotted or white, in many fine varieties 3/- doz.	6—7	3 6	6d.
	Dodecatheon Jeffreyi (<i>D. Meadia lancifolium</i>), umbels of drooping rose-coloured flowers with a yellow eye; very distinct, easily recog- nized by its large leaves	5—7	1 6	9d.
R	Meadia elegans , purple flowers, much re- sembling a cyclamen; thrives well on a rockery, or in a shaded situation	5—7	1 2	9d.
R	splendidum , deep crimson with a yellow ring	5—7	1 2	6d.
	Doronicum austriacum , an effective border plant in the early spring, producing, in great profusion, bright-yellow Daisy- like flowers	3—5	1 3	6d.
	Clusii (<i>glaciale</i>), rich yellow, very floriferous	4—6	1 3	6d.
	plantagineum excelsum (Harpur Crewe), large yellow flowers 2 to 3 inches in diameter; blossoms with great free- dom; one of the most showy plants in cultiva- tion and invaluable for cutting	4—6	2 6	6d.
R	Douglasia laevigata , bright rosy-red flowers and small tufts of pale green foliage. A.M.	5	4	5/-
R	Draba bruniifolia , cushions of dark foliage, with heads of yellow flowers	3—5	2	9d.
R	gigas , white, very free	3—5	3	6d.
R	imbricata , flowers yellow, a charming little alpine, should be wedged tightly between rocks	3—4	3	1/6
R	Dracocephalum Ruprechtii , whorls of light blue flowers	5—7	1	9d.
	Ruyschianum , purplish flowers in dense spikes, free flowering	6—8	2	9d.
	virginicum , an erect plant crowded with pink flowers along the upper two-thirds of the stem	8—9	2 6	6d.
	album , the white variety. F.C.C.	8—9	2 6	9d.
R	Dryas Drummondii , large yellow flowers	7—8	6	1/6
R	octopetala , white, yellow centre	7—8	6	9d.
	Echinacea (<i>Rudbeckia</i>) purpurea , a grand old perennial, large red-purple flowers with blackish centre	7—8	2 6	9d.
	Echinops banaticus (Globe Thistle), light blue	7—8	4	9d.
	Ritro , large globular heads of blue flowers, strong grower	6—7	3 6	6d.
	ruthenicus , spherical heads of blue flowers, the upper part of the plant covered with a silvery down; a most distinct and ornamental plant	7—9	2 6	9d.
	sphærocephalus , large pale blue flower heads	7—8	5 6	9d.
	Tournefortiana (Globe Thistle) spherical thistle- like heads of silver-grey flowers with fine foliage	6—8	3	1/6

R=Rock Plants.

		Month of Flowering	Average Height.	Price each.
R	Edraianthus , see <i>Wahlenbergia</i> , page 58.			
R	Epigæa repens (Mayflower or Ground Laurel), clusters of delicate rose-tinted flowers, deliciously fragrant, must be planted under trees or in the shade of shrubs, a charming plant for early spring. A damp situation is necessary	4—5	6	2/6
	Epilobium angustifolium , purplish-rose, very free when planted in a shrubbery or large herbaceous border where it can be left to itself	7—9	3 6	6d.
	album , the white variety	7—9	3 6	6d.
R	Fleischeri (<i>Dodonei</i>), rose-purple	6—7	9	9d.
R	obcordatum , dwarf trailing habit, rose coloured flowers	6—7	6	1/-
R	Epimedium alpinum , a very pretty border or rock-plant	4—6	1	6d.
R	niveum , white flowers ; a neat front row plant for a shaded border, succeeds best in peaty soil	4—6	1	9d.
R	pinnatum , pretty pale yellow blossoms	4—6	1	9d.
	Eremurus , Veitch's Gold Medal Collection. See illustration page 22			
	Bungei , flower scape moderately stout. Individual flowers about an inch in diameter, bright canary-yellow, with a distinct green keel on the under side of the segments, prominent orange-red anthers	6	4	10/6 & 15/-
	magnificus , (Veitch), a much enlarged inflorescence of very bright yellow. Robust habit. A.M.	6—8	5	15/- & 21/-
	himalaicus , massive pillar-like stems bearing along the upper half of their length numerous cream-white flowers arranged in a crowded spiral raceme	6	5	3/6 & 5/-
	Him-Rob , a hybrid that flowers early. Flowers pale pink borne on stout stems	5	7	7/6 & 10/6
	Lemon Queen (Veitch), a fine hybrid between <i>E. Bungei</i> and <i>E. Warei</i> . The tall spikes are well furnished with clear lemon-yellow flowers which have bright orange anthers ; good grower. A.M.	6—8	5 6	25/- & 30/-
	Olga , differs from <i>E. robustus</i> in its narrow linear leaves, less vigorous and shorter scapes, but is remarkable for the great beauty of its individual flowers. These are about an inch in diameter, delicate blush-white or lilac tinted, with a thin dark line down the centre of each segment relieved by the bright yellow anthers. One of the latest to flower	7	5	15/- & 21/-
	robustus , stout erect scapes furnished along the upper half with a moderately dense raceme of pleasantly scented flowers each about 1½ inches in diameter. Soft flesh-pink conspicuously relieved by canary-yellow ovary and orange-red anthers	6	9	3/6 & 5/- 7/6 & 10/6
	albus , a great improvement on <i>E. robustus himalaicus</i> . Stronger and pure white	6—8	9	7/6 & 10/6
	Elwesianus , stouter scapes and larger flowers which appear earlier in the season. A beautiful pink relieved by bright orange-yellow anthers. The finest of all	5	9	5/- 7/6 & 10/6 & 15/-
	Warei , long spikes, buff-yellow. Probably a natural hybrid between <i>E. Olga</i> and <i>E. Bungei</i> . A.M.	6—8	6	15/- to 25/-
	dark variety , a dwarfer and deeper coloured form of the above variety	6—8	4 5	15/- to 25/-

R=Rock Plants.

		Month of Flowering	Average Height ft. in.	Price each.
	Erianthus Ravennæ , dense and handsome tufts of violet-tinged foliage, useful for planting with Pampas and other Grasses	9—10	4 6	1/-
	Ericas , see Catalogue of Hardy Trees and Shrubs.			
R	Erigeron aurantiacus , deep yellow, free-flowering either as a rock or border plant	6—8	6	6d.
R	caucasicus (<i>pulchellus</i>), rose-purple	6—8	1	6d.
	Coulteri , white; useful for the border	6—8	1 6	6d.
R	glabellus , blue and yellow, dwarf	6—8	6	6d.
	grandiflorus elatior , large lavender-coloured flowers, distinct	7	6	6d.
R	leiomerus , dwarf habit, pale purple flowers	6—7	6	1/-
	multiradiatus , purple and yellow	7—8	1	9d.
	philadelphicus , light purple and white	6—8	1	6d.
R	Roylei , bluish-purple, yellow disc	6—8	6	9d.
	salsuginosus , lilac-white	6—8	2	6d.
	speciosus (<i>Stenactis speciosa</i>), purplish-lilac, orange centres	6—8	2 3	6d.
	grandiflorus , larger and deeper in colour than <i>E. superbus</i> . Erect habit.	5—10	2 6	9d.
	major , a large flowered variety	6—8	2 3	9d.
R	Erinus alpinus , dwarf tufts of leaves, pretty violet-purple flowers, very suitable for old walls and ruins	5—7	3	6d.
	albus , a pure white variety	5—7	3	6d.
R	Erodium guttatum , pure white flowers with a dark blotch at base of upper petals, a pretty rock plant	6—8	9	1/-
R	macradenum , white flowers with violet markings, much divided foliage	6—8	9	9d.
	Manescavii , numerous showy purplish-red flowers about an inch in diameter; a free and vigorous grower	5—9	1 3	9d.
R	Reichardii (<i>chamedryoides</i>), white veined with pink; a very pretty alpine plant	6—8	3	1/-
	Eryngium alpinum , a very beautiful species, with light blue flowers, neat habit. A.M.	6—7	2	9d.
	amethystinum (true), deep blue glistening heads and stems and curiously shaped greyish foliage	7—9	1 9	1/-
	Bourgatii , a beautiful species with steel blue stems and bracts	7—9	1	9d.
	giganteum , bracts covered with a silvery amethystine bloom; a distinctive and handsome plant	6—8	2 6	6d.
	maritimum (Sea Holly), leaves of a whitish glaucous hue, flowers pale blue in roundish heads	6—8	1	9d.
	Oliverianum , numerous roundish heads of bluish flowers	7—9	2 6	9d.
	pandanifolium , leaves 3 feet long, tall branching heads of reddish-violet flowers	7—9	8 6	9d.
	planum , a useful and pretty species	6—8	2	6d.
	Springhill Seedling , dark steel-blue stems and flower, very attractive	7—9	2 6	1/-
	tripartitum , distinct, numerous heads of steel-blue flowers and bracts	6—8	2	9d.
	Eupatorium ageratoides , dense heads of white flowers	8—9	2	9d.
	purpureum , branching heads of purple flowers	7—9	3 6	9d.
R	Euphorbia capitata , a neat and effective trailing plant for the dry rockery, yellow flower heads	5—6	4	9d.
R	Cyparissias (Cypress Spurge), light green foliage, tinged with a beautiful red in the autumn	5—6	1 6	6d.
R	Myrsinites , prostrate umbels of yellow flowers, light green leaves	5—6	6	1/-
R	pilosa major , terminal tufts of pale yellow flowers, leaves beautifully tinged with red in the autumn	5—6	1 9	9d.
R	polychroma (<i>epithymoides</i>) a handsome Spurge with heads of bright chrome-yellow changing to rosy-bronze	5—6	1 6	9d.

R=Rock Plants.

R **Ferns, hardy**, see page 84

Ferula communis (Giant Fennel), graceful feathery-foliage, forming tufts of the finest green in early spring
gigantea, similar to the preceding, but much larger;
 one of the finest hardy foliage plants in cultivation
Linkii, foliage finely cut

Francoa appendiculata, somewhat tender, extremely pretty and useful for cutting, long branching spikes of pink flowers
ramosa (Bridal Wreath), pinkish-white flowers on a short stem, very pretty and distinct; useful for cutting

Funkia Fortunei, deep green foliage, flowers white, shaded lilac
variegata, glossy green leaves, edged with white, showy and distinct
lancifolia, racemes of pale blue flowers
marginata, pale green foliage edged with white, flowers light blue
undulata variegata, white and green foliage, useful for the edge of borders
ovata aureo-variegata, golden-yellow variegated leaves
Sieboldii, large heart-shaped glaucous foliage, drooping lilac-tinted flowers
subcordata grandiflora, large and effective pale green foliage, flowers white
 12 in 6 distinct varieties (our selection), 6/-

Gaillardia, see page 66

R **Galax aphylla**, neat rounded toothed foliage, beautifully tinted, dense spikes of white flowers

Galega officinalis albiflora compacta, white pea-shaped flowers in numerous clusters

carnea fl. pl., a splendid border plant with double pink flowers, fine for cutting

compacta, pinkish blossoms, dwarf and neat

patula Hartlandii, very ornamental, lavender-blue and white flowers. A.M.

R **Gaura coccinea**, an American species with rosy-pink to coral-scarlet flowers, very floriferous, good for the border or rockery

Lindheimeri, a graceful plant with pink and white flowers, requires a warm sunny position

R **Genista**, see Catalogue of Hardy Trees and shrubs.

R **Gentiana acaulis**, large bells of the deepest blue; a fine edging plant, 30/- and 60/- per 100

R **alba**, erect bell-shaped flowers, a white form of the type

R **affinis (Bigelovii)**, flowers an inch in diameter, deep velvety-blue, trailing habit

R **Andrewsii**, terminal clusters of numerous large inflated closed flowers of a beautiful amethystine blue; one of the handsomest Gentians in cultivation

asclepiadea, deep purplish-blue, darker spots inside, from 12 to 16 on each stem; a border plant

alba, the white variety

R **bavarica**, large velvety flowers of a deep Prussian-blue; dwarf and compact; one of the best

calycosa, sky-blue flowers an inch in length

R **cruciata**, deep blue flowers produced in whorls; succeeds well in a border

decumbens, clusters of pale blue flowers; distinct

lutea, bold habit, striking in any border; broad lanceolate leaves, whorls of rich yellow flowers

		Month of Flowering	Average Height. ft. in.	Price each.
R	Gentiana Pneumonanthe , rich blue flowers, sometimes striped with white, succeeds well in an artificial bog	8—9	10	9d.
R	septemfida , large bright blue flowers, whitish in the throat	8—9	10	1/-
R	verna , the most intense blue, dense tufts; one of the best alpinos	3—5	4	9d., 1/-
	Veitchiorum , large very deep blue erect bell-shaped flowers, a rare Chinese species. A.M.	6—7	3	10/6
R	Geranium argenteum , very dwarf, silvery foliage, pink flowers	5—8	6	1/-
	armenum , most vigorous and free, deep purplish-crimson	5—8	2 6	6d.
R	cinereum , a dwarf and charming alpine	5—8	6	9d.
	Endreesii , bright rose, very floriferous	5—8	2	6d.
R	grandiflorum , large bright blue flowers, front row of border or rockery	5—7	9	9d.
	platyanthum , a Chinese species with rosy-purple flowers, very floriferous	5—8	2	1/-
	platypetalum , crimson-purple flowers	5—8	2	9d.
	pratense album plenum , double white flowers	5—8	1 9	6d.
	fl. pl. , double purplish-blue flowers	5—8	1 6	6d.
	sanguineum , magenta-crimson, neat and dwarf	5—8	6	6d.
	album , a pure white form, very free. A.M.	5—7	6	9d.
R	sanguineum lancastriense , rose pencilled with dark crimson; distinct and pretty	5—8	6	9d.
	striatum , pink, with darker veins	7—8	1	9d.
	sylvaticum plenum , light blue	6—8	3	6d.
	Geum Chitoense Mrs. Bradshaw , rich brilliant crimson flowers of immense size. A.M.	6—9	2	1/-
	coccineum fl. pl. , vivid scarlet double flowers, particularly valuable for cutting	6—9	1 6	6d.
	Ewenii , orange, semi-double	6—9	1 3	6d.
R	Heldreichii , orange-red, very attractive. A.M.	6—9	1	6d.
	splendens , deeper coloured flowers produced more freely than the type	5—6	1	9d.
	miniaturum , (<i>Chiloense</i>), orange-red, distinct and showy	6—9	1 6	9d.
R	montanum , a pretty alpine, useful for rockwork or borders; beautiful clear golden-yellow flowers, neat and compact tufts of foliage	4—5	6	6d.
	aurantiacum , probably a hybrid between <i>G. montanum</i> and <i>G. Heldreichii</i> ; deep orange - yellow. A.M.	4—5	8	9d.
R	Gillenia, trifoliata , erect slender panicles of white and pink flowers	6—8	2	9d.
	Gladiolus , see Bulb Catalogue.			
	Glaucium flavum , bright yellow flowers, silvery-white leaves	6—8	1 6	9d.
	tricolor , rich orange and mahogany-red flowers, produced freely. A.M.	6—9	1 6	1/-
R	Globularia trichosantha , blue; a good rock or border plant	5—6	1	6d.
R	Gnaphalium Leontopidium (Edelweiss), a favourite and well-known alpine; will grow freely in a light open soil	6—7	6	6d.
	Grasses, Ornamental , see page 90.			
	Gunnera manicata , a gigantic plant with striking foliage, the leaves being borne on footstalks 4 to 5 ft. long. A damp shady situation is best. F.C.C.	7—8	5 0	5/- to 10/6
	scabra , large and fine foliage, single leaves often attaining a width of 4 to 5 feet; a most conspicuous and handsome plant in a prominent position, particularly on the margins of ponds or lakes; succeeds best in a warm sunny spot	7—8	4 6	1/6 to 5/-

Gypsophila paniculata fl. pl., a lovely border plant.

R=Rock Plants.

Gynerium argenteum, (Pampas Grass), see Hardy Ornamental Grasses, see page 90.

R **Gypsophila cerastioides**, a pretty trailing plant, producing numerous clusters of white flowers streaked with violet; thrives well in an open position on the rockwork

paniculata, dense compact bush with small white flowers, produced in great profusion; very useful for cutting; the stalks supporting the flowers are much-branched and very graceful

fl., pl., a double-flowered form of this extremely useful plant (see illustration above). A.M.

R **repens**, flowers white

R **monstrosa**, pure white flowers nearly double the size of the type, grows freely and is good for the rockery or front row of border. A.M.

R **rosea**, a charming little plant for the rockery with masses of rosy-pink flowers covering the ground

vulgare , a yellow species			6d.
yellow standard , a fine rich yellow			9d.
6 distinct varieties (our selection) 3/-			
12 in 6 distinct varieties (our selection), 5/-			
Helianthus decapetalus , pale yellow flowers, about 2 inches across, stalks much branched at the top	7—8	4 6	6d.
giganteus , a very strong grower, free-flowering, bright yellow	9—10	7 6	6d.

R=Rock Plants.

	Month of Flowering	Average height. ft. in.	Price each.
Helianthus lætiflorus , the flowers about 2 inches across, on numerous spreading branches	9—10	7	6d.
Daniel Dewar , very distinct with incurved petals, much like a chrysanthemum	9—10	7	6d.
mollis , leaves handsome, silvery green, flowers yellow, dark centre	9—10	3 9	9d.
multiflorus , very showy	7—9	4 6	6d.
Bouquet d'Or , a very fine double form, bright golden flowers, very distinct	7—9	3 6	9d.
maximus , immense golden-yellow flowers, 4 to 5 inches in diameter	7—9	6	6d.
plenus , handsome double variety	7—9	4 6	6d.
Soleil d'Or , bright golden-yellow	7—9	4 6	9d.
orgyalis , tall, slender stems, drooping narrow leaves, yellow flowers on short stalks	9—10	6 0	9d.
rigidus (<i>Harpalum rigidum</i>), large golden-yellow flowers with black centre ; a fine border plant, and invaluable for cutting	6—8	3	6d.
Miss Mellish , large semi-double brilliant yellow flowers, A.M.	8—10	7 0	6d.
Rev. Wolley-Dod , bright yellow, a fine late-flowering variety	9—11	6 6	6d.
semi-plenus , semi-double rich golden yellow. F.C.C.	8—9	4	6d.
sparsifolia , large deep rich yellow flowers on long stems, very late flowering. A splendid hybrid raised from crossing <i>H. rigidus</i> with <i>H. Californicus</i> , a double variety	9—10	6	1/6
strumosus , small, useful for cutting	7—9	3 6	6d.
6 distinct Helianthus (our selection), 3/-			
12 in six distinct varieties (our selection), 5/-			
R Helichrysum bellidifolium . A dwarf carpetting plant with white flowers. A.M.	6	6	1/6
Heliopsis lævis grandiflora , (Orange Sunflower), deep orange yellow, very lasting	7—8	4	6d.
scabra imbricata .—A dwarf form with flowers 3 inches in diameter, florets golden yellow	7—8	3	1/6
scabra Pitcheriana , rich yellow. A.M.	7—8	3 6	9d.
semi-plenus , orange, semi-double	7—9	3 6	9d.
Helleborus atrorubens , purple, very free and pretty	1—3	1	1/6
colchicus , dark purple flowers, handsome dark leaves, with five to seven broad and coarsely-toothed divisions.	2—3	1	2/6
guttatus , white flowers spotted and sometimes streaked with purple on the inside.	2—3	1	1/6
niger (Christmas Rose) the large pure white flowers of this and the following varieties are indispensable for cutting in December and January. To have the blooms pure white and clean, a handlight should be placed over the plants as they come into bloom	12—2	8	9d. 1/6
angustifolius , very fine	10—12	1	1/6 3/6
major , strong plants for forcing	11—1	9	1/6 2/-
maximus , large rose tinted flowers	11—1	9	1/6 3/6
Madame Fourcade , distinct and beautiful	12—2	8	2/6
Riverstonii , robust variety	12—2	9	2/6
orientalis (The Lenten Rose), many fine distinct varieties	1—3	1	1/- 3/6
seedlings	1—3	1	9d.

R=Rock Plants.

6 Lenten Roses in 6 named varieties (our selection),
6/- 9/-

12 Lenten Roses in 6 named varieties (our
selection) 9/- and 12/-

Seedling vars., good strong flowering plants,
very varied in colour, 7/6 per dozen.

R	Heloniopsis breviscapa , spikes of bluish-white flowers in early spring. Requires a damp shady position. A.M.	2—3	6	2/-
R	Hemerocallis aurantiaca major , flowers deep orange-yellow, nearly 5 inches in diameter ; the finest in the genus. F.C.C.	6—8	2 6	9d.
	disticha , broad foliage, bronzy yellow flowers	6—8	3	6d.
	fl., pl. , large double bronzy yellow flowers. F.C.C.	6—8	2 6	6d.
	Dumortieri , bronzy orange, exterior of the flowers of a deeper tint	6—8	2	6d.
	Dr. Regel , rich apricot, good quality. A.M.	8	2 6	1/-
	Flamid , very early-flowering, orange-coloured flowers	5—6	2	6d.
	flava , clear yellow, very fragrant	5—6	2 6	6d.
	fulva , dark orange shaded crimson, flowers produced in great abundance	6—7	3	6d.
	fol. striata , striped foliage	6—7	3	9d.
	Kwanso fl. pl. , large double bronze-coloured flowers. F.C.C.	7—8	3	6d.
	fol. var. , foliage beautifully variegated. F.C.C.	7—8	3	1/-
	luteola , flowers bright golden-yellow, borne on tall stems. A.M.	7—8	3	1/-
	Middendorffii , deep orange-yellow ; useful for cutting. F.C.C.	5—6	1 6	9d.
	minor (<i>graminifolia</i>), soft yellow ; a dwarf species with grass-like foliage	7—8	1	9d.
	Thunbergii , rich clear canary-yellow	7—8	3	9d.

6 distinct Hemerocallis (our selection) 3/-

R	Hepatica angulosa , beautiful large sky-blue flowers	2—4	6	9d.
	alba , masses of evergreen foliage covered in early spring with large pure white flowers	3—4	6	1/6
	rosea , a rose coloured form	3—4	6	1/6
R	triloba (<i>Anemone Hepatica</i>), lovely dwarf spring flowers, very pretty when grown in masses and left undisturbed. Succeed best in good rich loam and rather shady situation			7/6 & 10/6
R	alba fl. pl. , very rare, double white	3—5	6	2/-
R	blue, double			6d.
	single			1/6, 2/6
	large clumps			6d.
	red, double	3—5	6	1/6, 2/6
	large clumps			9d.
	single			9d.
	white, single			

6 distinct varieties (our selection) 5/-

R	Herniaria glabra , prostrate habit, pretty masses of evergreen foliage, valuable as a carpet plant	5—8	1	6d.
	Hesperis matronalis (Sweet Rocket), fragrant spikes of pinkish white flowers	6—7	1 6	6d.
	alba , the white variety, showy for shrubberies			6d.
	plena , the double white variety			9d.
	lilacina plena , one of the oldest and rarest forms of the Old Rocket. A.M.	6—7	1 6	1/6
	purpurea plena , double purple, very pretty and distinct			1/-

R=Rock Plants.

		Month of Flowering	Average height.	Price each.
R	Heuchera brizoides , large spikes of rosy coloured flowers, handsome foliage	7—9	1 9	6d.
R	Edge Hall Hybrid , rose colour, very large	7—9	2	9d.
R	Flambeau , dense spikes of flame- coloured flowers on stout erect branching stems	7—9	2	1/-
R	gracillima , rich crimson, very graceful, one of the best. A.M.	7—9	2	6d.
R	micrantha , flowers in a loose panicle, light and graceful. A.M.	6—7	2	9d.
R	Richardsonii (<i>hispidula</i>), flowers veined with purple, brown foliage	6—7	2 6	6d.
R	sanguinea , an extremely pretty dwarf hardy plant, with small roundish leaves, and numerous lovely panicles of bell- like flowers of the most brilliant coral-red; a robust and vigorous grower in almost any border. F.C.C.	6—8	1 9	6d.
R	alba , a white variety, very distinct	6—8	1 9	9d.
R	grandiflora , larger and brighter colour than the type; showy	6—8	1 9	9d.
R	Rosamunde , coral-pink a fine variety	6—7	3	1/-
R	rosea , pretty rose flowers, in habit similar to the type	6—7	1 9	9d.
R	Zabeliana , tall handsome spikes of pink coloured flowers, pale green leaves	6—7	2 6	9d.
R	Hieracium villosum , a charming perennial with silvery glau- cous leaves, and bright yellow flowers	6—8	1	6d.
R	Hippocrepis comosa , clusters of yellow pea-shaped flowers	4—8	2	6d.
	Hollyhocks (<i>Althæa rosea</i>), seedlings from a fine strain of double flowers, beautiful colours very showy in the border	7—9	1	9d.
	selected colours, white, lilac, crimson, sulphur, rose, flesh, cherry, lilac, lake, scarlet, etc.	7—9	1	1/-
	single, mixed colours	7—9	1	9d.
R	Horminum pyrenaicum , bluish purple flowers on short nodding pedicels	5—7	9	9d.
	album , white flowers, ever- green foliage, very uncommon	6—9	9	1/-
R	Houstonia cærulea , small dense tufts of leaves surmounted by tiny slender stems of pale blue flowers	5—7	5	9d.
R	alba , a pretty white variety	5—7	5	1/-
R	Hutchinsia alpina , a neat plant with shiny leaves and pure white flowers, suitable for the rockery or front row of borders	4—6	4	9d.
R	Hypericum Coris , a miniature species with rich yellow flowers, for a dry position in rockery	5—9	4	9d.
R	cuneatum , buds very red opening to bright yel- low, habit procumbent	6—7	3	2/6
R	empetrifolium , flowers yellow, leaves small, habit neat and dwarf	5—9	1	9d.
R	olympicum , symmetrical bushes covered with large bright yellow flowers	5—8	1	9d.
M	repens (<i>ericoides</i>), a charming species with heath- like leaves on prostrate stems, terminating in racemes of bright yellow flowers	6—9	6	9d.
R	reptans , one of the brightest for the rockery with unusually large golden yellow flowers, prostrate habit, evergreen	6—9	3	6d.
R	Iberis correæfolia , compact heads of large white flowers	5—6	8	6d.
R	gibraltarica , large heads of delicate lilac-pink flowers, thrives well in a sunny spot on the rockery. F.C.C.	5	9	9d.
R	Little Gem , white flowers, very free and dense, a fine rock plant	5—6	3	6d.
R	saxatilis , white flowers in numerous small capitate heads on dense evergreen prostrate shoots	4—8	3	1/-
R	semperflorens , an erect shrubby species with dense corymbs of white flowers	4—6	9	6d.

R=Rock Plants.

	Month of Flowering	Average height.	Price each.
R Iberis sempervirens plena , double white, very free and showy	5	ft. in. 1	9d.
R Garrexiana , a spreading plant with large umbels of pure white flowers	3—4	9	6d.
R Snowflake , large heads of pure white flowers, a great improvement on the type	4—7	9	6d.
Incarvillea Delavayi , leaves elegantly cut ; flowers deep rose produced in clusters. F.C.C.	6	2 6	9d.
grandiflora , rich intense carmine toned with magenta, yellow throat, flowers larger than <i>I. Delavayi</i> . F.C.C.	6	10	1/-
brevipes , large brilliant crimson flowers, habit of <i>I. Delavayi</i>	6—7	2	1/6
Olga , large trumpet-shaped rose-pink flowers, 2 inches long, a very beautiful plant	7—9	3 6	9d.
Inula glandulosa , large deep golden flowers, 3 to 4 ins. across	6—7	1 6	9d.
laciniata , large orange-coloured flowers, petals finely cut	6—8	1 9	9d.
Helenium (Elecampane), a vigorous grower, large leaves, bright yellow flowers on stout stems	6—7	5	9d.
Hookeri , pale yellow, sweet scented flowers, 4 to 5 inches diameter	6—7	2 6	9d.
Oculus-Christii , deep yellow flowers on short stems	6—8	1	1/-
Royleana , deep golden yellow flowers, good shape	8—10	2	1/-
Iris , see page 67.			
Isatis glauca , flowers yellow, borne in a large loose panicle ; leaves glaucous, very effective	6—7	3 9	1/-
Jaborosa integrifolia , long tubular white flowers, evergreen	6—7	9	6d.
R Jasione perennis , masses of light blue flowers for border or rockery, a desirable plant of strong constitution	7—9	1	9d.
Jurinea alata .—Numberless heads of blue-purple flowers above silver grey foliage, particularly effective when seeding, fine for the wild garden	6—7	3 6	1/-
Kniphofia , see Tritoma, p. 54.			
Lathyrus grandiflorus , large crimson pea-shaped flowers, produced in pairs ; a showy plant for a trellis or for covering old tree stumps, &c.	7—8	5 0	9d.
latifolius , rose-coloured flowers, produced in abundance	7—8	5 0	6d.
albus , the pure white Everlasting Pea, valuable for cutting	7—8	5 0	9d.
splendens , brilliant rose carmine	7—8	4	1/-
White Pearl , large white flowers produced in profusion	7—9	5 0	1/-
Lavatera Olbia .—A perennial bush mallow with rosy-pink flowers	6—8	3 6	1/6
R Lewisia rediviva .—Pretty rose-coloured flowers, springing from roseates of deep green foliage. Does best in a dry sunny position amongst stones. F.C.C.	6—8	3	1/6
Liatris graminifolia dubia , bright rose purple flowers, on long stems. A.M.	7—9	4	1/-
pycnostachya , deep purple flower-spikes a foot in length F.C.C.	7—9	3 0	9d.
scariosa , large dark purple flowers, a distinct shade	9	2 6	9d.
magnifica , rich crimson purple, an improvement on the type	9	2 6	1/-
spicata , violet-purple spike, handsome and neat in growth	7—9	1 6	6d.
Lilium , see Bulb Catalogue			
R Linaria alpina , dense tufts of bluish violet and orange flowers	5—10	3	6d.
R rosea , attractive rose-coloured flowers	5—10	3	9d.
dalmatica , (syn. <i>macedonica</i>), golden yellow, orange lip	6—9	2 6	6d.
R pallida , dwarf creeping plant	6—9	3	9d.
R pilosa , bright purple	6—9	3	9d.
R repens alba , heads of white flowers borne on wiry stems forming dense compact bushes	6—9	1	9d.

Lapinus arboreus Snow Queen

R=Rock Plants.

		Month of Flowering	Average height.	Price each.
	Lindelofia spectabilis , drooping clusters of deep purplish blue flowers, very showy	5—7	ft. in. 1 3	6d.
R	Linnæa borealis , a lovely little trailing plant with slender stems and rose-pink flowers produced in pairs ; requires a cool, shady situation	7—9	3	1/-
R	Linum alpinum , a dwarf alpine with bright blue flowers on slender stems, only suitable for the rockery	6—8	6	9d.
R	aboreum , a charming little evergreen bush, glaucous leaves, numerous corymbs of bright yellow flowers	6—9	1 3	9d.
R	flavum , golden yellow flowers in great abundance ; succeeds almost anywhere	6—8	1 3	6d.
R	monogynum , a New Zealand species with large hand-some white flowers	6—7	2	9d.
R	narbonense , bright blue flowers	6—7	2	9d.
R	perenne , a slender, elegant plant with bright blue flowers	7—8	1 3	6d.
R	album , a white form of the preceding, a charming rock or border plant	7—8	1 3	6d.
R	Lithospermum Gastonii , lovely azure-blue flowers, with white eye, borne in clusters	6—9	1	2/-
R	graminifolium , grass-like foliage and masses of rich deep blue flowers. F.C.C.	4—9	9	2/6
R	(Moltkia) petræum (Rock Gromwell), dense cymes of flowers at first pinkish but on opening are rich violet blue, a beautiful rock plant	7—9	9	1/6
R	prostratum , a hardy spreading evergreen, lovely rich deep blue flowers	4—9	9	9d.
	Heavenly Blue , tufts of dark evergreen foliage, covered with a profusion of sky blue flowers. A.M.	4—11	3	1/-
R	purpureo-cæruleum , dark purple-blue flowers, only suitable for covering dry banks or large rocks	5—7	1	6d.
R	rosmarinifolium , a deep blue shade, charming bushy plant with Rosemary-like foliage	5	1 6	1/-
R	Zollingeri , tufts of very rough, glistening foliage with lovely sky-blue flowers. Only recommended for large rockeries and front row of borders	6—9	1	1/-
	Lobelia cardinalis Fire Fly , intense scarlet, dark stems and dark green foliage, tinged with reddish-bronze	7—9	2 6	9d.
	Queen Victoria , foliage dark purple, greatly heightening the effect of these splendid plants	7—9	2 3	9d.
R	linnæoides , flowers white on slender erect stems, when established it is very attractive, the foliage being very dense and ever-green, requires a moist position in the rockery	7—8	4	1/6, 2/6
	syphilitica , light blue flowers thrives best in a damp, shady situation or near water	7—9	1 6	6d.
	alba , the white variety	7—9	1 9	6d.
	Lobelia cardinalis , L. syphilitica and their varieties require protection in winter.			
R	Lotus corniculatus , fl. pl. , double yellow flowers often tipped with crimson, an effective rock plant	5—9	4	9d.

Lupins at Wisley.

R=Rock Plants.

	Month of Flowering	Average height.		Price each.
		ft.	in.	
Lupinus arboreus , invaluable for rocky banks or slopes. Pea-shaped sweet-scented yellow flowers in profusion	6—9	3		9d & 1/-
Snow Queen , a dense bush, fragrant white flowers. A.M. See illustration, page 34	6—9	3	6	9d & 1/-
Foxii , dark blue and white. A.M.	5—6	2	6	9d.
Moerheimii , very fine rose-pink, dwarf compact grower	5—8	3		1/-
Nootkatensis , large spikes of blue and white flowers	5—8	1	9	9d.
polyphyllus , numerous elegant flower spikes crowded with blue and purple blossoms ; a first-class perennial in any situation	5—6	3	6	6d.
albus , the white variety	5—6	3	6	6d.
roseus , soft rose-pink, flowers in profusion. A.M.	5—6	2	6	1/-
Somerset , semi-shrubby growth, bright yellow flowers. A.M.	6—8	3		1/-
R Lychnis alpina , clusters of bright rose-pink flowers	6—8	4		6d.
chalcedonica , large dense heads of brilliant scarlet flowers, invaluable for cutting ; one of the best border plants	7—8	3		6d.
fl. pl. , brilliant scarlet, dense corymbose heads, erect stems	7—8	2	3	9d.
alba pl. , a white variety of the preceding	7—9	2	3	1/-
dioica rubra fl. pl. , bold heads, fine for massing or cutting	5—9	1	3	6d.
R flos-cuculi alba plena , a double white variety of the old <i>Ragged Robin</i>	6—7	1	6	9d.
R grandiflora , a Japanese species, delicate salmon-scarlet, prefers a moist situation. A.M.	6—9	2		1/-
R Haageana , flowers about 2 inches in diameter, of various bright colours from crimson to white	6—7	1		6d.
R Lagascæ , a lovely alpine with bright rose-red flowers	6—8	3		6d.
R vespertina plena , large double white flowers, very fragrant	6—9	2		1/-
R viscaria , panicles of rose-coloured flowers	6—8	1	3	6d.

R=Rock Plants.

		Month of Flowering	Average height. ft. in.	Price each.
R	Lychnis viscaria alba grandiflora , a large-flowered white variety, a great advance on other white forms	6-8	1 3	6d.
R	splendens plena , large and double, a beautiful bright rose	6-8	1 3	6d.
	Lysimachia clethroides , long dense spikes of white flowers	7-9	2 3	6d.
R	Henryi , an evergreen species from N.W. China, with clusters of deep yellow flowers. A.M.	6-8	9	2/-
R	Nummularia (Creeping Jenny), bright yellow flowers, excellent for hanging baskets	6-8	1	6d.
R	aurea , a gold-leaved variety of the same	6-8	1	6d.
	velutina , flowers soft yellow	7-8	2 3	9d.
	verticillata (<i>punctata</i>), long spikes of yellow flowers, very free	7-9	1 9	6d.
	Lythrum roseum superbum , large spikes of clear rose-coloured flowers; an effective border plant	7-9	3 6	6d.
	Rose Queen , fine rosy spikes	7-8	3 6	9d.
	virgatum , rosy-purple, an elegant and charming species	7-9	3	9d.
	Malva moschata , masses of lovely rose-pink	6-9	1 6	6d.
	alba , numerous large pure white flowers, excellent for cutting; a good border plant. F.C.C.	7-8	2 6	6d.
R	Mazus rugosus .—A perennial creeper with mauve-blue flowers and tufts of small leaves. A.M.	3-4	3	1/6
R	Meconopsis cambrica (Welsh Poppy), yellow and bronze	5-7	1	6d.
	plena , clear yellow double flowers, A.M.	6-7	1	1/-
	integrifolia , yellow, biennial. F.C.C.	6-8	2 6	2/-
	punicea , scarlet biennial. F.C.C.	6-8	1 6	2/6
	racemosa .—A distinct biennial Poppy with purplish-blue silky flowers. A.M.	6-7	1 3	2/6
	sinuata .—A biennial with charming lavender-blue flowers. The leaves are covered with stiff hairs.	6-8	1 3	2/6
R	Wallichii (Blue Himalayan Poppy), a stately plant with cut foliage and erect flower stems, along nearly the whole length of which are produced azure-blue pendant flowers 2 to 2½ inches in diameter.	6-7	3 9	2/6
R	Megasea (<i>Saxifraga</i>) cordifolia , large heart-shaped leaves on long thick stalks, dense masses of rose-pink flowers	3-4	1	6d.
R	purpurea , flowers, brilliant purple; during the winter the foliage is deeply tinged with bronze	4-5	1 3	9d.
R	crassifolia , pendant masses of pale rose-pink flowers, slightly tinged with lilac	4-5	1	9d.
R	ligulata , broad obovate leaves, flowers white with a rose margin, very effective	4-5	1	6d.
	ciliata , resembles the type, but has hair on both leaf surfaces	4-5	2	9d.
R	orbicularis , dark massive foliage, with large heads of rose-coloured flowers	4	1	9d.
R	Stracheyi , light pinkish and lilac flowers on pendant branching spikes; very pretty	5-6	1	1/-

R=Rock Plants.

		Month of Flowering	Average height.	Price each.
	Mertensia echioides , racemes of deep blue flowers with an intense yellow eye, vigorous growth	5—7	ft. in. 3	1/6
	lanceolata , drooping pale blue flowers, good habit	5—7	1	1/6
	paniculata , rich violet-blue, a beautiful species	7—9	1 6	1/-
	primuloides , gentian-blue flowers, resembles <i>M. echioides</i> . A.M.	5—7	9	1/6
	sibirica , small bell-shaped flowers in drooping clusters	5—6	1	6d.
	virginica , drooping clusters of purplish-blue flowers	5—6	1 3	9d.
R	Mesembryanthemum uncinatum .—Flowers pink on very quaint grey foliage	6—7	10	1/-
	Michauxia campanuloides , spikes of large whitish flowers with reflexed petals	7—8	4 0	6d.
♀	Mimulus cardinalis , bright scarlet	6—8	2	9d.
	luteus , bright yellow, spotted with red	6—8	1 6	6d.
R	Primuloides , creeping species from N.W. America, flowers bright yellow on very slender erect stems	6—8	6	1/-
R	radicans , creeping with short leafy branches, flowers white with violet spots. F.C.C.	6—7	1	9d.
	Molinia cœrulea fol. striatis , a slender-leaved grass, beautifully striped yellow and green, good for edging and bedding	7—8	1	9d.
	Molopospermum cicutarium , an ornamental foliage plant, useful for isolation or grouping	5—6	4 6	9d.
	Monarda didyma (Bergamot), deep red flowers in numerous large terminal whorls; extremely handsome	6—8	2 9	6d.
	Cambridge Scarlet , a much more vivid shade than <i>M. Didyma</i>	6—8	2 9	9d.
	fistulosa , whorls of purplish rose-coloured flowers; robust growing	6—8	3 6	6d.
	Montbretia , see Bulb Catalogue.			
	Morina longifolia , long spiny thistle-like leaves, and strong erect spikes of rose-coloured flowers; a most effective plant	6—8	2 6	9d.
R	Morisia hypogæa , small bright yellow flowers above rosettes of deep green leaves.	3—7	2	1/-
	Myosotidium nobile , (The Chatham Island Forget-me-not). Dense paniculate racemes of pretty pale blue flowers, handsome glossy green foliage. F.C.C.	5—7	2	3/6 to 7/6
	Myosotis alpestris Victoria , a low cushion of the most lovely azure-blue; valuable for edging	3—6	6	9
	dissitiflora , bright blue, good for massing			
	alba , the white variety			
	rupicola , (alpestris), (The true alpine Forget me-not), dense tufts of foliage covered with brilliant deep blue flowers with yellow eyes. F.C.C.			
	Ruth Fischer .—Flowers pure light blue, very large, habit dwarf and compact	4—7	4	9d.
	sylvatica (Forget-me-not) 2/- per doz. ; 12/6 per 100	4—6	6	9d.
	Welwitschii .—pale blue flowers, creeping habit	3—6	9	
		5—6	4	1/-
R	Nepeta Glechoma variegata (<i>Glechoma hederacea variegata</i>), a procumbent plant with blue flowers and variegated leaves	5—6	6	6d.
	Mussinii , a beautiful shade of pale lavender, dwarf compact habit	5—8	1	6d.

R=Rock Plants.

		Month of Flowering	Average height, ft. in.	Price each.
R	Nierembergia rivularis , large open cup-like creamy white flowers, about 2 inches across, barely pushed above its dense foliage.	6—9	3	6d.
	Oenothera fruticosa major , a mass of showy bright yellow blossoms	6—9	1 6	6d.
R	macrocarpa , compact trailing masses of yellow flowers	6—8	8	6d.
R	marginata , a pretty dwarf species with white flowers	6—9	6	1/-
	Pilgrimii , clusters of large yellow flowers, one of the very best	6—8	1	9d.
R	pumila , the smallest species, yellow flowers, very pretty and interesting	6—8	4	9d.
R	riparia , a pretty species with slender branches, golden yellow flowers	6—8	1	9d.
R	speciosa , flowers white, changing to rose, borne on erect shrubby stems ; a valuable perennial for borders or large rockwork	6—9	1 3	9d.
R	rosea , plant of trailing habit, flowers bright rose-pink. A.M.	6—8	6	9d.
R	taraxacifolia (<i>acaulis</i>), large white flowers, fine trailing plant for the rockery	6—8	8	6d.
	Youngii , clusters of deep yellow flowers	6—9	1 6	6d.
R	Omphalodes cappadocica .—Dark blue flowers, large glossy leaves, strong grower	3—4	9	2/6
R	Luciliæ , pale blue and lilac flowers, foliage glaucous grey	6—10	6	5/-
R	verna , charming little plant, clear blue Forget-me-not- like flowers with white centre	3—4	4	6d.
	alba , a white-flowered form of the preceding	3—4	4	6d.
R	Ononis rotundifolia , a neat shrubby plant, producing numerous rose-pink flowers	5—6	1 3	9d.
R	Onosma alba rosea , very distinct, rose-coloured	6—7	6	1/6
R	tauricum (<i>echioides</i>), pretty drooping clusters of clear yellow sweet-scented blossoms	5—8	10	1/6
	Orchis foliosa , handsome erect spikes of rose-purple flowers ; one of the handsomest terrestrial Orchids	5—8	1 9	2/6
	Other varieties of <i>Orchis</i> and <i>Ophrys</i> can be supplied.			
	Oreocome (<i>Selinum</i>) Candollei , an umbelliferous plant, valuable for its finely cut fern-like foliage	6—7	1 9	9d.
R	Origanum hybridum , the flowers resemble bunches of rose-coloured hops, a pretty rock plant for a dry position	6—8	1	1/-
R	Dictamnus (true), Dittany of Crete, drooping heads of pink flowers	6—8	1	2/6
R	pulchellum , pretty sub-shrubby plant with silvery leaves, rosy purple flowers	6—8	9	1/-
R	Orobus (<i>Lathyrus</i>) aurantiacus , bright orange blossoms	4—5	1 9	9d.
R	canescens (<i>filiformis</i>), blue-purple, very showy	5—7	1	1/6
R	lathyroides , bright blue flowers produced in dense racemes	5—7	1 9	9d.
R	pannonicus varius , erect racemes of pea-shaped flowers, with rose-coloured standard and yellowish wings and keel	6—8	1 6	1/-
R	vernus , beautiful purple and blue flowers, veined with red ; charming border plant	4—5	1	6d.
R	albus plenus , double white flowers, very rare	4—5	1	1/6
	Ostrowskia magnifica , one of the finest hardy perennials. Gigantic campanulate flowers, measuring 5 to 6 inches across the mouth, of a delicate mauve-lilac colour suffused with white, and with deeper veins and reticulations ; the stems are strong, with oblong leaves arranged in clusters of fours, and the flowers are either borne singly or in terminal racemes. F.C.C.	7—8	3 6	1/6, 2/6
R	Ourisia coccinea , slender clusters of bright scarlet blossoms, produced on creeping stems	5—6	9	1/-

R=Rock Plants.

Pæonia, see page 73.

Pampas Grass (*Gynerium argenteum*), see Hardy Ornamental Grasses page 90

		Month of Flowering	Average height. ft. in.	Price each.
R	Papaver alpinum , flowers varying from white to orange ; silvery foliage, for rockeries only	5—8	9	6d.
	bracteatum , large brilliant crimson-scarlet flowers, with a black blotch at the base of each petal	5—6	3	6d.
	Beauty of Livermere , bold flowers of a deep crimson colour	5—6	4	9d.
R	nudicaule (Iceland Poppy), beautiful clear yellow	5—8	1	6d.
R	album , pure white, very elegant	5—8	1	6d.
R	miniatum , brilliant orange-scarlet. F.C.C.	5—8	1	6d.
	orientale , bright orange-scarlet with black blotch, very large and showy	5—7	2 6	6d.
	Blush Queen , delicate blush, very distinct. F.C.C.	5—7	2 6	6d.
	Brilliant , vivid vermilion, blackish centre	5—7	2 6	6d.
	Goliath , gigantic scarlet flowers pro- duced in abundance, very effective	5—8	3	9d.
	Jenny Mawson , rich rosy salmon, large flowers on erect stems	5—7	2 6	1/-
	Lady Roscoe , orange terra-cotta and a satin-like sheen. A.M.	5—7	2 6	9d.
	Little Prince , very dwarf	5—7	2	6d.
	Marie Studholm , salmon suffused with carmine, of silky texture	5—7	2 6	9d.
	Mrs. Marsh , rich crimson-scarlet, ir- regular blotch of white on each petal	5—7	2 6	9d.
	Mrs. Perry , flowers medium size, on stout stems, a lovely shade of orange- apricot, a unique colour	5—7	3	1/-
	multiflorum , crimson, distinct	5—7	2 6	6d.
	Oriental King , a very strong grower, rigid and upright, large crimson- scarlet flowers	5—8	3	1/-
	Prince of Orange , orange - scarlet, compact habit	5—7	2 6	6d.
	Princess Victoria Louise , rosy salmon, free bloomer	5—7	2 6	9d.
	Queen Alexandra , bright rosy sal- mon with conspicuous crimson blotch, very fine and distinct in colour. A.M.	5—7	2 6	1/-
	Royal Scarlet , strong growing	5—7	2 6	6d.
	Salmon Queen , salmon-red	5—7	2	6d.
	Silberblick , a beautiful salmon shade with white anthers and stamens	5—8	3	9d.
	Silver Queen , white, with a faint blush	5—7	2	6d.
	Parochetus communis , deep blue flowers, plant in warm position	6—9	3	9d.
	Parnassia palustris (Grass of Parnassus), large pure white flowers, a splendid plant for the bog garden	5—9	6	9d.
	Pentstemon barbatus , see <i>Chelone barbata</i> , page 17			
	Cobæa , long pale purple flowers, pencilled with red and suffused with yellow ; very fine. A.M.	8—10	2 6	9d.
R	glaber , leaves glabrous, flowers blue, violet or purple	5—7	1 6	6d.
E	heterophyllus , dwarf, lilac-pink flowers, changing to blue, produced in pairs	7—8	1 6	9d.
	lævigatus digitalis , many white flowers, like a Foxglove	8—9	2	9d.
R	Menziesii , violet to rosy blue flowers in marvel- lous profusion, a most showy border or rock plant	6—9	1	1/-
R	Scouleri , large lilac-blue flowers, evergreen	6—8	1 6	1/-

Phlox setacea (subulata).

R=Rock Plants.

		Month of Flowering	Average height.	Price each.
			ft. in.	
	Pentstemon Murrayanus , whorls of bright scarlet flowers, broad glaucous foliage	8—10	4	1/-
	ovatus , vigorous growing, ultramarine to deep rose-purple, dense spikes	8—10	3 6	9d.
	pubescens , leaves pubescent, flowers white to dull violet or purple	6—9	2	9d.
R	spectabilis , fine blue-purple flowers over one inch long, very effective	6—8	2	9d.
	Seedlings of Florists' Varieties , page 76			
R	Phlox amoena , numerous bright rose-pink flowers	5—6	6	6d.
R	fol. var. , a white variegated form of the well- known <i>P. amoena</i> , producing a fine effect of colour against the flesh green of the rest of the foliage, and covered with pure rosy red flowers	5—7	6	9d.
R	canadensis , pale blue flowers. F.C.C.	5—6	1	9d.
	alba , the white variety	5—6	1	9d.
	Laphamii , clear brilliant blue, large trusses	5—7	1 6	1/-
R	ovata , lilac flowers in small crowded heads	5—7	1	6d.
R	pilosa Brilliant , flowers bright crimson	5—6	6	1/-
R	procumbens , dwarf and compact habit, clusters of pale purple flowers with violet markings near the centre	5—6	6	6d.
R	setacea , (<i>subulata</i>) delicate rose, deep crimson eye. See illustration above	5—7	3	9d.
R	subulata atro-purpurea , a dwarf carpet plant with dark awl-shaped leaves and purplish-rose flowers	5—6	6	6d.
R	Brightness , bright rose with scarlet eye, very free	4—6	4	1/-
R	compacta , clear rose dwarf compact habit	4—6	4	9d.
R	frondosa , delicate pink flowers above com- pact foliage	4—6	4	6d.
R	Nelsonii , charming variety, covered with white flowers	5—6	6	6d.
R	nivalis , very pretty, small pure white flowers	5—6	6	9d.
R	rosea major , large pale rose flowers, crimson eye	5—6	6	9d.

Platycodon grandiflorum Mariesii.

R=Rock Plants.

	Month of Flowering	Average height.		Price each.
		ft.	in.	
R Phlox subulata Sprite , bright rose, crimson eye	5—6		6	9d.
R The Bride , white, pink centre, very pretty	5—6		6	9d.
R stellaria , a very beautiful species with pure white starry flowers 1 inch across	5—6		9	6d.
R lilacina , flowers of a lilac colour, neat habit	5—6		6	6d.
R verna , a lovely pink, dark throat	5—6		6	6d.
Florists' Varieties , page 77.				
R Phygeliu capensis , long branching spikes of brilliant scarlet flowers, very showy	6—10	2	6	9d.
R Physalis Alkekengi (Winter Cherry), peculiar orange-red fruit, useful for winter decoration	5—6	1	3	6d.
Franchetii , a gigantic species of Bladder Cherry, by far the most ornamental of the genus yet known. Its bright coral-red capsules are about 3 inches in length, varying in colour from light orange to orange-scarlet when mature. F.C.C.	6—7	1	9	6d.
Picotees , see page 62.				
Platycodon grandiflorum (<i>Companula grandiflora</i>), deep blue campanulate flowers, 2 to 3 inches across ; very showy	7—8	1	6	6d.
album , pearl-white	7—8	1	6	9d.
Mariesii , numerous dark blue flowers on dwarf stout stems, very handsome F. C. C. See illustration above	7—9		9	6d.

R=Rock Plants.

		Month of Flowering	Average height. ft. in.	Price each.
R	Plumbago Larpentæ (<i>Ceratostigma plumbaginoides</i>), dense tufts of foliage, covered in autumn with beautiful deep blue flowers which gradually change to violet; a good plant for a warm position on the rockery or in the herbaceous border.	8—10	10	9d.
	Podophyllum Emodii , fruit 2 to 3 inches long of the most brilliant coral-red colour, exceedingly handsome	5—6	1	9d.
	peltatum , beautiful wrinkled leaves, small white flowers	5	1	1/-
R	Polemonium cæruleum variegatum , variegated foliage	6—7	1	1/-
R	confertum , a beautiful shade of deep blue, a fine rock plant. F.C.C.	6—7	6	1/6
R	mellitum , graceful light green foliage with racemes of white flowers. A.M.	6—7	1	1/
	himalayanum , spikes of large clear blue flowers and fern-like foliage; invaluable for any herbaceous border	5—7	2	9d.
R	reptans , creeping stems, and loose drooping panicles of slate-blue flowers	5—6	1	6d.
	Richardsonii , large sky-blue flowers borne in numerous heads; an excellent decorative plant	5—7	1 6	6d.
	alba , a white variety of the preceding	5—7	1 3	6d.
	Polyanthus , see page 80			
	Polygala Chamæbuxus , } See Hardy Tree and Shrub Catalogue			
	purpurea , } See Hardy Tree and Shrub Catalogue			
	* Polygonatum multiflorum (Solomon's Seal), elegant arching stems, with numerous drooping white blossoms; fine for forcing	5—6	2 3	4d. to 9d.
R	Polygonum affine (<i>Brunonis</i>), dense spikes of rosy red flowers, lasting through the autumn	8—10	6	6d.
	amplexicaule , spikes of bright crimson flowers on long graceful stems	8—9	2 6	9d.
R	capitatum , flowers pale pink, foliage marked with dark bands, procumbent	5—9	6	1/6
	compactum , white flowers, in profusion on stout erect stems	7—10	1 6	9d.
	cuspidatum (<i>Sieboldii</i>), cream-white flowers, in great profusion, handsome dark green foliage; very effective as a single specimen	6—8	6	9d.
	polystachyum , bluish-white flowers in graceful sprays, a fine border plant	7—10	5	9d.
	sachalinense , a grand plant of immense size, producing a striking effect on a moist herbaceous border or on the margin of water	7—9	1	9d.
	sphærostachyum , spikes of crimson flowers, very showy	7—9	1 3	2/6-3/6
R	vacciniifolium , branching spikes of rose-coloured flowers, dwarf and pretty	9—10	6	9d.
R	Potentilla ambigua , a Himalayan species with dense masses of dark green leaves covered with large yellow flowers, a fine rock plant	6—7	3	1/-
R	atro-sanguinea , Gibson's variety , dazzling single blood-red flowers. A.M.	7—9	9	1/-
R	formosa (<i>nepalensis</i>), pretty pink flowers, a useful border plant	7—9	1	6d.
R	Hopwoodiana , very distinct, buff, shaded with rose. F.C.C.	7—9	1 6	9d.
R	Miss Willmott , deep clear red, a grand plant for border or rock-garden	6—9	1 6	1/-
R	pyrenaica , very showy, deep golden yellow	7	6	9d.
R	rupestris , large white flowers	5—8	6	6d.

Primula pulverulenta.

R=Rock Plants.

R Potentilla Tonguei, bright orange or terra-cotta flowers, spotted with crimson, a gem for the rock garden

Florists' Varieties, see page 80

Primrose, Blue, many shades of blue, from pale lavender to deep violet, seedlings

" Evelyn Arkwright," the largest form of our native Primrose known; flowers fully $2\frac{1}{2}$ ins. in diameter

R Primula auricula, deep golden yellow flowers

Beesiana, tall spikes of rosy purple flowers, bold foliage

Bulleyana, bright orange-coloured flowers in whorls on scapes of from 3 to 5 tiers, moisture-loving. F.C.C.

R capitata, flowers of the deepest purple. F.C.C.

Clusiana, large bright crimson heads of flowers

Cockburniana, orange-scarlet. A.M.

R cortusoides, clusters of deep rosy flowers; useful for the rockery

There are numerous varieties of this showy species

amœna, rosy purple, large white eye

R Sieboldii, large, richly coloured flowers broad handsome foliage. F.C.C.

Primula Veitchii.

R=Rock Plants.

		Month of Flowering	Average height.		Price each.
			ft.	in.	
R	Primula denticulata , an Himalayan species with globular heads of lilac coloured flowers	5—8		9	6d.
R	alba , a handsome variety with large pure white flowers with yellow centre	5—8		9	9d.
R	Cashmiriana , heads of light purple flowers with yellow centre	5—8	1		9d.
	alba , a white form of the preceding	5—8	1		9d.
R	farinosa , umbels of pale purple, yellow-eyed blossoms, with rosettes of silvery leaves	3—5	4		9d.
R	Forbesii , a Chinese species with dainty flowers of soft pink, flowering continuously; not quite hardy but a charming plant for greenhouse culture. F.C.C.	5	6		9d.
R	Forrestii . — Sturdy and vigorous. Golden-yellow with orange-coloured eye of medium size. Flowers and foliage both exceptionally fragrant. F.C.C.	6—7	2		1/6&2/6
R	frondosa , a species with rosy-lilac flowers, the green foliage is covered with a silvery farina	4—5	6		9d.
R	integrifolia , smooth shiny leaves, bright rose flowers	3—5	3		1/-
R	intermedia , purplish crimson flowers, yellow centre, very fragrant	3—5	6		9d.
	japonica , whorls of rich crimson blossoms, a fine border plant. F.C.C.	3—5	1	3	9d.

R=Rock Plants.

		Month of Flowering	Average height. ft. in.	Price each.
R	Primula Knuthiana (Veitch), a new species from North China with neat trusses of rosy-lilac flowers borne above a rosette of mealy leaves. (See illustration on cover). A.M.	3—4	6	5/-
	Littoniana , dense conical spikes of purple flowers. The bracts and calyces are blood-red and the corolla purple. F.C.C.	6—7	2	3/6
	luteola , compact heads of rich yellow flowers	3—5	9	1/-
	Maximowiczii , bright orange-red fragrant flowers produced in whorls. A new species from N. China. A.M.	6—7	1 0	10/6
R	marginata , soft violet-pink flowers; pretty grey leaves with a silver margin	3—5	6	9d.
	megasæfolia , a rare species with rich rosy purple flowers, requires a moist and shady position. A.M.	3—5	9	1/-
R	nivalis , (<i>viscosa nivea</i>), snow-white flowers	3—5	4	1/6
	pulverulenta (Veitch), resembling <i>P. Japonica</i> , with larger and more richly-coloured flowers A.M.	6—7	2 6	9d.
	pulverulenta var. Mrs. R. V. Berkeley , in habit of growth the variety now offered is identical with <i>P. pulverulenta</i> . Flowers cream-white with rich orange eye, stem mealy. F.C.C.	5—7	2 6	3/6
	rosea grandiflora , bright rose varying to carmine, a beautiful variety requiring a moist shady position	4	9	9d.
	sibirica chinensis , lilac with white eye. Very free flowering and useful for the rockery	6—7	1	1/6
	sikkimensis , heads of canary-yellow flowers, very distinct. F.C.C.	4—5	1 3	1/-
	Unique "Improved" (Veitch).—(<i>P. Cockburniana</i> × <i>P. pulverulenta</i>), rich rosy-red flowers intermediate in colour between the parents. A.M.	6—7	1	2/6 & 3/6
	Veitchii (Veitch).—Deep rose-coloured with an orange ring surrounding the yellow mouth of the tube. A.M.	6—7	1	1/-
	vulgaris alba plena (<i>Double Primroses</i>), the old double white	3—5	6	6d.
	carnea plena , double salmon-pink	3—5	6	1/-
	Croussii , profusion of double purplish lilac flowers, with white edges	3—5	6	9d.
	lilacina plena , double lilac	3—5	6	6d.
	lutea plena , double golden yellow	3—5	6	9d.
	purpurea plena , double reddish purple	3—5	6	6d.
	rubra fl. pl. , (<i>Mad. Pompadour</i>) rich velvet crimson flowers, very rare	3—5	6	2/6
	sulphurea plena , double sulphur	3—5	6	6d.
	(<i>Single Primroses</i>), in mixed colours, 3/- dozen, 21/- per 100	5—3	6	
R	Wulfeniana , bright pink, very pretty	3—4	3	1/-
R	Prunella grandiflora alba , (<i>laciniata</i>), fine spikes of white flowers, a grand border plant	6—8	9	6d.
R	Webbiana , dense spikes of crimson-purple flowers. A.M.	6—7	10	6d.
R	Pyrola rotundifolia , spikes of white flowers similar to those of a large Lily of the Valley, requires shade and moisture	6—7	6	9d.
	Pyrethrum uliginosum , clusters of numerous large white flowers, a noble plant for the border and invaluable for cutting	8—10	6	6d.
	Florists' varieties , see page 80			
R	Ramondia pyrenaica , rosettes of pretty wrinkled leaves from which spring short stems bearing numerous violet-purple flowers with an orange centre; invaluable for fissures on the rockery; peaty soil	5—8	6	9d.
R	alba , a pure white variety of great beauty. F.C.C.	5—8	6	3/6
R	serbica , bell-shaped, lilac with yellow centre. Leaves covered with silky white hairs, very pretty	5—8	6	1/6
R	Nathaliæ , deeper coloured flowers, bright orange anthers	5—8	4	1/6

Rodgersia æsculifolia.

R=Rock Plants.

		Month of Flowering	Average height. ft. in.	Price each.
	Ranunculus aconitifolius plenus (Fair Maids of France), beautiful double snowy- white flowers, in pro- fusion	5—7	1 9	6d.
	acris fl. pl. (Batchelor's Button) clusters of pretty double yellow blossoms	5—6	2	6d.
R	alpestris , a very dwarf alpine with pure white flowers and glossy leaves	5—8	3	9d.
	amplexicaulis , large pure white flowers with yellow centres, free and showy	5—7	10	9d.
R	monspeliacus , large yellow blooms, a good rock plant	4—6	1 6	9d.
R	parnassifolius , large pure white flowers with neat orbicular or heart-shaped foliage ; a charming little plant	6—7	8	9d.
R	rutæfolius , white, dark yellow centre, foliage cut	5—6	9	1/6
	speciosus , very large double yellow flowers ; very showy	5—6	1 3	9d.
	Rheum Alexandræ .—Pale yellow leaf-like bracts, above very dark and glossy green foliage	6—7	3	1/6
	Collinianum , a handsome foliage plant with large leaves and spikes of crimson flowers	5—6	6	1/-
	Emodii , large handsome cordate leaves, wavy margins	5—6	6	1/-
	officinale (Rhubarb), immense leaves, bold and striking	5—6	6	1/-

R=Rock Plants.

	Month of Flowering	Average height.	Price each.
Rheum palmatum var. tanghuticum , large, boldly incised foliage	5—6	ft. in. 3 6	1/-
Rhododendron ferrugineum } See Hardy Tree & album } Shrub Catalogue.			
Rodgersia æsculifolia , panicles of pinkish-white fragrant flowers, handsome bronze-green foliage. See illustration, page 47	6—7	2 6	1/-
pinnata , deep rosy-crimson flowers	6—7	2 6	2/6
alba , a fine variety with white flowers, effectively used in moist positions, A.M.	6—7	2 6	1/-
podophylla , a handsome foliage plant with palmate bronze-tinted leaves, 20 to 25 inches across. F.C.C.	7—8	1 9	1/-
sambucifolia , large pinnate deep bronze green leaves; panicles of creamy-white flowers	7	1 6	1/6
tabularis , Astilbe-like white flowers, with large flat leaves on single stems, 3 ft. high	7—8	6 0	2/6
Romneya Coulteri , large white Poppy-like flowers, 4 to 5 inches in diameter, bright golden-yellow anthers, very effective. F.C.C.	6—7	2 6	1/6 to 5/-
trichocalyx , large Poppy-like flowers, similar to <i>R. Coulteri</i> , but the buds are flatter and hairy	6—7	2 6	5/-
Rosmarinus prostratus , trailing habit, only suitable for dry positions on rockery	7—8	3	1/-
Rudbeckia californica , a noble plant, with large golden yellow flowers 4 inches across, dark conical-shaped disc, very vigorous. A.M.	8—9	4 6	6d.
Herbstonne , very large golden-yellow	7—9	5 6	1/-
laciniata , large pale yellow flowers 4 to 5 inches in diameter; very free	7—8	4 6	6d.
fl. pl. (<i>Golden Glow</i>), brilliant golden-yellow. A.M.	7—8	4 6	6d.
maxima , amongst the largest in the genus, bright yellow; glaucous foliage	7—9	5 6	6d.
Newmannii (<i>speciosa</i>) profusion of large orange-yellow composite flowers, 3 to 4 inches in diameter, with a raised maroon centre; valuable for the border and for cutting purposes; one of the best	8—10	2 6	6d.
nitida , very showy yellow flowers, one of the latest	8—10	4 6	9d.
purpurea , deep maroon-crimson, raised brown disc, very handsome and showy	7—8	2 9	9d.
subtomentosa , yellow with purple centre, branching habit	7—9	3	6d.
Salvia glutinosa , pale yellow flowers, rare and interesting	7—9	3	9d.
pratensis , rich purple flowers in numerous spikes, graceful habit	6—8	2	6d.
Sclarea , spikes of bluish-white flowers, a handsome species	7—9	3	9d.
* Sanguinaria canadensis , pure white Anemone-like flowers, kidney-shaped silvery leaves	5—6	6	6d.
Sanguisorba canadensis , spikes of creamy-like flowers, very free-flowering	8—9	4 6	9d.
R Santolina incana , a small silvery shrub, the whole plant covered with dense white down	6—7	1	9d.
R viridis , pale yellow blossoms, a useful rock plant	6—8	1	6d.

R=Rock Plants.

		Month of Flowering	Average height. ft. in.	Price each.
R	Saponaria ocymoides , a prostrate plant forming dense cushions of neat foliage, and producing a profusion of rose-pink flowers	6—7	6	6d.
	alba , a variety of the above covered with myriads of white flowers	6—7	4	9d.
R	splendidissima , flowers large, deep rosy crimson; a charming plant for rock-work, banks, slopes, etc.	6—7	6	1/-
	officinalis plena , large corymbs of lilac-pink flowers	7—8	2	6d.
	Sarracenia purpurea (Hardy Pitcher Plant), deep blood-red, a curious and most attractive plant for a moist situation	6	9	2/6 & 5/-
	Saxifraga , see page 82.			
	Scabiosa caucasica , large heads of pale lilac flowers, 3 to 4 inches across; one of the best hardy perennials in cultivation, grows and flowers freely in any ordinary soil	6—8	2 6	9d.
	alba , a white-flowered variety of the preceding. A.M.	6—8	2 6	1/-
	elata (<i>Cephalaria tartarica</i>), sulphur-yellow, a tall plant suitable for the shrubbery	6—8	5 6	6d.
R	graminifolia , dense tufts of narrow silvery white leaves and pale mauve flowers, a splendid rock or border plant	6—9	9	9d.
R	Parnassii (<i>Pterocephala</i>), pale purple flowers, grey-green foliage	6—9	6	6d.
	Schizocodon soldanelloides .—A Japanese creeper with evergreen bronzy foliage and bright crimson fringed flowers. Requires peaty soil and shady position. F.C.C.	3—6	3	2/6
	* Schizostylis coccinea (Crimson Flag, or Kaffir Lily), fine scarlet, early winter-flowering plant (strong in pots)	9—10	1 9	6d.
	Scutellaria baicalensis caelestina .—Spikes of pale blue flowers, a splendid plant for warm position on rockery or front row of border.	7—9	1	1/-
R	Sedum acre , bright yellow flowers, fine for rockwork.	5—6	3	6d.
	aureum , a yellow-foliaged variety of the type	5—6	3	6d.
R	album , a dwarf growing plant with white flowers	6—7	6	6d.
R	altissimum , yellow flowers on erect stems, glaucous foliage	6	1	9d.
R	amplexicaule , golden-yellow flowers, evergreen foliage	6	6	9d.
R	dasyphyllum , pink flowers, silvery-grey foliage	7	1	6d.
R	Ewersii , clusters of purplish flowers, silvery-white foliage, very ornamental	7—9	3	6d.
R	glaucum , (<i>hispanicum</i>), short spreading stems, densely clothed with thick greyish-coloured leaves	6—7	3	6d.
R	kamtshaticum , rich yellow flowers, evergreen foliage of a bright colour	8—10	6	6d.
R	variegatum , the foliage is distinctly marked with yellow	8—10	6	9d.
R	lydium , very small pink flowers, a charming evergreen species	8	3	6d.
R	monstrosum , yellow flowers borne on curiously fasciated stems	7—8	9	6d.

Senecio Veitchianus.

R=Rock Plants.

		Month of Flowering	Average height.	Price each.
R	Sedum oreganum , pale rose-coloured flowers, bright green leaves, very distinct	7	ft. 6	9d.
R	primuloides , flowers white, resembling small white berries	6	4	2/6
R	pulchellum , rosy-purple flowers, evergreen trailing stems	7—8	4	9d.
R	sempervivoides .—Intense scarlet flowers, grey rosettes of foliage tipped with red	6—7	6	1/6
R	Sieboldii , round heads of rose-pink flowers, prettily tinted foliage	7—8	1	6d.
	splendens variegatum , flowers purplish-lilac, leaves white and green	7—8	1	9d.
R	spathulifolium , citron-yellow flowers, glaucous leaves	6	3	6d.
R	spectabile , dense broad corymbs of rosy-purple blossoms, borne on stout, erect stems; handsome plant	8—9	1 3	6d.
R	rubrum , a crimson form of the preceding	8—9	1 3	9d.
R	spurium rubrum , beautiful crimson flowers	7—8	1	6d.
R	Telephium , heads of purplish-pink flowers, useful in dry positions	7—9	1	6d.
R	ternatum , an evergreen species with white flowers on prostrate stems	7—9	3	9d.
Other species and varieties can also be supplied.				
R	Sempervivum , useful plants for the rockery 6 distinct varieties, 3/-; 12 in 6 distinct varieties 5/-.			

Senecio clivorum.

R=Rock Plants.

	Month of Flowering	Average height.	Price each.
Senecio clivorum , flower large, golden yellow ; leaves bold, heart-shaped, on long petioles ; well adapted for the side of lakes or streams. A.M. See illustration above.		ft. in.	
sub-crenata .—Rather less robust in habit than the species. Rounded foliage of more compact growth. Rich orange-yellow flowers	7—8	4 6	9d.
Doria , large heads of golden yellow flowers	8	2	1/6
Doronicum , large bright yellow flowers, 2 to 3 inches in diameter, borne on stout erect stalks	7—8	6 6	1/-
japonicus , large much-divided leaves, branched stems, orange-yellow flowers	6—7	1 9	6d.
macrophyllus , yellow flowers in loose terminal corymbs, large leaves	7	4 6	9d.
pulcher , rose - purple flowers, with golden - yellow centres ; an extremely handsome perennial for any border. F.C.C.	8	7	1/-
	9—10	2 6	9d.

R=Rock Plants.

		Month of Flowering	Average height.	Price each.
	Senecio tanguticus , panicles of bright yellow flowers, suitable for wild garden. A.M.	9—10	4 6	9d.
	Veitchianus (Veitch).—Bright yellow blossoms. A true bog garden plant. A.M. See Illustration page 50.	7—8	6	1/-
	Wilsonianus .—Habit similar to <i>S. Veitchianus</i> , with flowers smaller and more dense	7—8	5	1/-
	Serratula atriplicifolia , globular heads of purple flowers	9—10	5	9d.
R	Shortia galacifolia , a most interesting North American plant of great rarity, producing Snowdrop-like flowers on rose-coloured footstalks raised above a deep green shining foliage which in autumn assumes a deep port-wine red. F.C.C.	5—6	6	1/6 & 2/6
	Sidalcea candida , pure white flowers, very pretty and useful for cutting. A.M.	6—8	2	6d.
	Listeri , pink, with fringed edges, very pretty	6—8	2 6	9d.
	malvæflora , deep pink, useful for cutting	6—8	1 6	9d.
	Rosy Gem , rosy pink flowers in elegant spikes	6—8	3 6	6d.
R	Silene acaulis , a dwarf Alpine, producing in summer a mass of pink flowers, just above the foliage	5—7	2	6d.
R	alba , pure white flowers, pretty for the rockery	5—8	2	9d.
R	aurea , a charming Alpine forming tufts of golden yellow mossy foliage	6—7	1	1/6
R	fl. pl. , dense cushions of light green foliage covered with bright rose double flowers	6—7	1	1/6
R	alpestris , pure white flowers in dense masses	5—6	4	6d.
R	Asterias grandiflora , globular heads of deep red flowers on erect stems, rare	5—6	1	9d.
R	maritima fl. pl. , a handsome variety, with sea-green spreading leaves, and large double white flowers	5—6	3	6d.
R	rosea , a single variety with rose-coloured flowers	5—6	4	6d.
R	Schafta , large purplish-rose flowers, fine front row plant	7—8	5	6d.
R	virginica , brilliant scarlet or crimson-scarlet, 2 inches in diameter	5—6	1 3	1/6
R	Silphium laciniatum , yellow flowers on tall branching stems, handsomely cut foliage	8—9	7	9d.
	perfoliatum , a stately plant with large opposite leaves, yellow flowers, 3 to 4 inches in diameter	7—8	6	9d.
R	Sisyrinchium grandiflorum , elegant bell-shaped flowers of the richest purple	3—5	1	9d.
R	album , pure white	3—5	1	9d.
R	Soldanella alpina , pale bluish, open pendant flowers, which pierce the snow in order to open; requires a peaty, sandy soil, and a fairly moist place on the rockery	3—5	5	9d.
R	montana , larger than <i>alpina</i> , and a darker shade	3—5	5	9d.
R	Solidago brachystachys , Flowers deep yellow, a very pretty plant for the rock garden	9—10	1	1/6
	canadensis		4 6	6d.
	Golden Wings		6	1/-
	multiradiata	7—9	4 6	6d.
	rigida		3 6	9d.
	serotina		4 6	6d.
	Shortii , loose arching heads of bright yellow, by far the most decorative of the whole genus	7—9	6	9d.
	Virgaurea cambrica (Golden Rod), a fine form	5—6	10	6d.
	Spigelia marilandica , tubular flowers, red without, yellow within	7—8	1	1/-
	Spiræa Aruncus , large, gracefully drooping plumes of white flowers	6—7	3 6	9d. & 1/-

R=Rock Plants.

		Month of Flowering	Average height.	Price each.
	Spiræa Aruncus Kneiffii , elegant foliage and light plume- like heads of white flowers	6—7	ft. in. 2 6	9d. & 1/-
	plumosa , dwarf, immense white plumes	6—7	2 6	1/-
	* astilboides , a handsome and distinct Spiræa, exceed- ingly useful for all decorative purposes and for cutting	6—7	2 3	9d.
	Filipendula fl. pl. , fern-like foliage, particularly distinct	6—9	1 3	6d.
	gigantea , (<i>camtschatica</i>), large panicles of white flowers, fine palmate foliage. F.C.C.	7—9	7	9d.
	rosea , a very fine pink variety	7—8	8	1/6
	* japonica , (<i>Astilbe</i>), panicles of pure white flowers	6—8	2	9d.
	aureo-reticulata , foliage veined with yellow	6—8	1	1/-
	palmata , broad clusters of the most beautiful crimson blossoms displayed well above a handsome palmate foliage. F.C.C.	6—7	2 9	6d.
	alba , the white variety. F.C.C.	6—7	2	6d.
	elegans , soft rose tint	6—7	2 9	6d.
	Ulmaria, fl. pl. , snowy-white, double, fragrant	6—7	2 6	6d.
	variegata , creamy-yellow, variegated foliage	6—7	2	6d.
	venusta (<i>lobata</i>), broad feathery heads of rose-carmine blossoms, very effective	6—8	3 3	9d.
	Stachys coccinea , brilliant scarlet-red flowers in terminal spikes, requires sheltered position	7—8	1	9d.
	grandiflora (<i>Betonica grandiflora</i>), spikes of beauti- ful violet flowers	5	1 6	9d.
	discolor (<i>nivea</i>), pale-sulphur tinted flowers, very large	6	1	1/-
	Statice eximia alba , a beautiful white form	8—9	1	1/6
	superba , large spreading heads of lovely lilac flowers	8—9	1	1/-
	Gmelinii , heads of dark purplish-blue flowers	7—8	1	9d.
R	Gougetiana , small panicles of lavender flowers, above rosettes of evergreen foliage, a charming species from Spain suited for sunny nooks on the rockery	7—8	3	1/-
R	incana nana , in mixed colours, large heads of flowers ; a valuable decorative species	7—8	1	9d.
	latifolia , wide-spreading flower stems, producing a pro- fusion of purplish-blue flowers	7—8	2 3	6d.
	Limonium , large clusters of deep blue blossoms	7—8	1	6d.
R	spathulata , purple and white flowers, very ornamental evergreen leaves	7—9	1	1/-
	Stenanthium robustum , a first-class plant for a damp shady position. Feathery plumes of white flowers on tall spikes lasting a long time. A.M.	7—8	6	1/6
	Stipa pennata , gracefully arching long feathery spikes, particu- larly valuable for cutting	7	1	6d.
	Stobæa (<i>Berkheya</i>) purpurea , numerous thistle-like bluish- purple flowers, very showy	7—8	2	1/-
	Stokesia cyanea , large showy blue flowers, similar to an Aster	7—9	1 6	9d.
	alba , flowers 4 to 5 inches in diameter. Fine for cutting. A.M.	7—9	2	1/-
	præcox , rich lavender-blue flowers with reddish centre, useful for decora- tive purposes. A.M.	7—10	1 6	1/-
	Symphytum officinale argenteum , silver variegated foliage, drooping blue flowers ; a fine border plant	4—6	2	9d.
	aureum , gold varie- gation	4—6	2	9d.
	bohemicum , race- mes of reddish- purple flowers ; very handsome	6—8	1 3	9d.
	Tanakea radicans , spiræa-like plumes of white flowers, ever- green	5—7	1	1/6

R=Rock Plants.

		Month of Flowering	Average height.	Price each.
R	Teucrium Chamædrys , whorls of rosy-purple flowers, freely produced	7—9	ft. in. 1	6d.
R	orientale , violet-coloured flowers, greenish foliage ; rare	7—8	1	1/-
R	Thalictrum adiantifolium , elegantly divided foliage, resembling a Maiden-hair Fern ; very useful for cutting purposes	7—8	6	9d.
	anemonoides , pure white flowers, often an inch in diameter ; a neat, dwarf plant	5—6	4	9d.
	aquilegifolium , handsome border plant with Columbine-like foliage and white flowers	6—7	3	6d.
	rubrum , rose-pink flowers	6—7	3	9d.
	Delavayi , rose-coloured drooping flowers, elegant glaucous foliage. A.M.	7—8	2	1/-
	dipterocarpum (Veitch), particularly graceful flowers, rose-purple with citron-yellow anthers. Requires an open sunny position. A.M.	7—8	6	1/6 & 2/6
	glaucum , large glaucous foliage ; fine for cutting	6—7	4	6d.
	Thermopsis caroliniana , bright yellow flowers, very showy	6—8	5	9d.
	montana , yellow pea-shaped flowers on erect stems	6—7	2	9d.
R	Thymus Chamædrys languginosus (Woolly-leaved Thyme)	6—7	1	6d.
R	citriodorus argenteus , a silver-variegated form	6—7	1	6d.
R	aureus , a golden-variegated form, very dense and compact. F.C.C.	6—7	1	6d.
R	erectus , clusters of rose-coloured flowers, dark ever-green leaves on twiggy stems	8	1	9d.
R	Serpyllum , rosy-purple flowers, a creeping plant with sweet-scented foliage	6—7	2	6d.
R	album , white wild Thyme	6—7	3	6d.
R	coccineum , red	6—7	3	6d.
R	Tiarella cordifolia (Foam Flower), white, star-shaped flowers, heart-shaped prostrate foliage veined with red	5	9	6d.
	Tradescantia virginica , showy purple-blue flowers ; a useful and very distinct border plant	5—7	1 6	6d.
	alba major , pure white variety ; fine border plant	5—7	1 6	6d.
	rubra , rose-tinted flowers	5—7	1 6	6d.
R	Trifolium repens purpureum , fine bronzy-purple foliage		3	9d.
	Trillium erythrocarpum , white spotted with purple at the base of each segment	5—7	9	9d.
	* grandiflorum , large white flowers, 2 to 3 inches across ; very free, requires a damp shady corner	5—7	9	9d.
	sessile californicum , large purplish leaves and blossoms. F.C.C.	5—7	1 6	9d.
	Tritoma (<i>Kniphofia</i>) caulescens , the most remarkable of the genus, the arrangement and aspect of its leaves resemble a Yucca	6—7	4 6	2/6
	Chloris , a yellow self ; late flowering	8—10	3	1/-
	corallina , very striking, neat habit, brilliant scarlet long and slender bells ; leaves narrow and spreading	8—9	1 9	1/-
	grandis , strong scarlet spikes, valuable for late flowering	8—10	3 3	2/-
	hybrida , seedlings of choice named varieties	7—10	4 6	9d.

Tritoma Uvaria grandiflora.

R=Rock Plants.

	Month of Flowering	Average height ft. in.	Price each
Tritoma John Benary (syn. Lord Roberts) (Veitch), the finest of all the strong growing varieties. Large compact bright scarlet flower spikes. Very fine for massing or for back of large border. A.M.	8—10	6	2/6
Lachesis , flower spikes deep yellow	9—10	3	1/-
Lemon Queen , a distinct and beautiful shade of lemon-yellow	8—10	3	1/6
Macowanii , flower segments recurved, orange-red tinged with pale yellow on the lower side. F.C.C.	7—9	1 9	1/-
Mrs. Mason , spikes of rich orange-scarlet and yellow, one of the best for distant effect	8—9	5	2/6
nobilis , magnificent orange-red flowers	8—10	6 6	1/-
Pfitzeri , orange-red, resembling <i>T. Macowanii</i> , but darker	8—10	3 6	1/6
rufa , yellow and orange, a charming species	7—10	2 6	1/-
Saundersii , clear and brilliant in colour, heads of flower often 18 inches in length	7—9	4 6	3/6
Triumph , bold spike of rich orange-yellow flowers. A.M.	8—9	4 6	2/6
Tuckii , deep red passing into yellow, summer-flowering species	6	4 6	9d.
Uvaria grandiflora , the longest and best known species, red and yellow, see illustration above.			
6/- per doz., 40/- per 100	7—9	3 6	
Phœbus , a fine yellow self; very free	7—9	2 6	1/6
Victor Lemoine , bright red self, very fine	8—10	4 6	

R=Rock Plants.

Trollius.

Trollius asiaticus, orange

caucasicus Orange Globe, orange flowers, a grand border plant. A.M.

europæus, lemon-yellow

albidus, creamy-white flowers

Excelsior, intense orange-coloured flowers, very large

Fire Globe, very large semi-double flowers of an intense fiery-orange

giganteus, large, lemon coloured

japonicus fl.pl., orange, double flowers

napellifolius, yellow, bordering on orange

pumilis yunnanensis, dark green leaves and bright golden yellow salver-shaped flowers. Quite distinct from any other Globe flower. Not unlike *Caltha palustris* in habit, but a superior plant

T. Smith, the largest yellow *Trollius* in cultivation

R Tropæolum *polyphyllum, very glaucous much-divided leaves, borne on creeping snake-like stems, and literally covered with large flowers of the most beautiful golden yellow; invaluable for rock-work, sunny banks, or the front row of borders

Plants of a compact and dense habit of growth, with large globular flowers rising well above the foliage; valuable for beds or borders growing in almost any soil or situation.

COLLECTIONS.

For the convenience of purchasers who prefer to leave the selection to us we have much pleasure in offering liberal Collections of Herbaceous and Alpine Plants containing the most showy and useful varieties.

Many of the choicest kinds for border decoration can be supplied in extra strong clumps to give immediate effect. Names and prices on application.

We have divided the plants into the following 6 sections :

1—ALPINE PLANTS.

2—DWARF PERENNIALS.

3—TALL PERENNIALS.

4—SPRING-FLOWERING PLANTS.

5—SUMMER AND AUTUMN FLOWERING PLANTS.

6—PLANTS FOR CUT FLOWERS.

In each section we shall be pleased to supply as follows :—

12 in 12 varieties for 4/- and upwards to 9/-

25 in 12 ,, 7/6 ,, 18/-

100 in 30 ,, 25/- ,, 70/-

Customers are respectfully requested to give the name and number of the section they require.

COLLECTIONS FOR MIXED BORDERS

from 25/- to 65/- per 100.

When ordering please give size of border, aspect and soil.

HARDY FLORISTS' FLOWERS.

ASTERS (Michaelmas Daisies).

The Perennial Asters form the most delightful feature of the flower garden throughout the autumn months, when other bright-coloured flowers are past. "Their slender-rayed blooms possess all the soft and delicate tints between white, rose, crimson, and purple ; with the additional charm of a bright yellow centre." Flowering in great profusion with a neat foliage, these plants provide elegant sprays for cutting and their great range in habit and aspect renders them valuable for planting in many situations. They are quite hardy and require no special culture.

SPECIES AND VARIETIES.

ASTER.

	Average Height in feet	Price each.
acris , satiny mauve, heads of bloom of great width, neat and compact	2 to 3	6d.
amelloides , large deep blue flowers, sweetly scented	1½	9d.

Special Descriptive List of Border Carnations and Picotees free on application.

Veitch's Delphiniums.

DELPHINIUMS.

It is hardly possible to exaggerate the beauty of a mass of Delphiniums in flower at the back of a Herbaceous border. The colours range literally from the most charming and delicate porcelain blue to rich purple. The flowers are often flushed with a different tint, and many have white or black centres. They flower in June and July, but the season may be prolonged by cutting the central spikes as soon as the flowers are over, when side shoots will be developed. If especially fine spikes are desired, mulching in spring is advisable. With the exception of a few stakes in exposed situations no other assistance is required. The plants are perfectly hardy and succeed in almost any soil or situation.

DELPHINIUMS

Each.

12/-, 18/-, 24/- per dozen, except where otherwise priced.

Albert Victor , rose-violet, dark eye, semi-double	
Albion , when fully expanded the flowers are pure white	2/6

A.M.	1/-
stylosa (<i>unguicularis</i>), pale blue with yellow blotches on falls, flowers in winter	6d.
alba , beautiful pure white, early in spring	9d.
speciosa , finer and richer coloured lavender than the type	9d.
tenax major , a stronger growing variety than the type, bright lilac flowers	1/6
verna , a dwarf species light blue and orange flowers	1/-
versicolor Fosteri , rich velvety bright purple, reticulated with yellow and white ; elegant and pretty	1/-
kermesina , claret-red, darker and richer in colour than <i>versicolor</i>	1/-

For bulbous species see Bulb Catalogue free on application.

Iris Kämpferi (Japanese Iris).

IRIS KÆMPFERI (*Iris lævigata*)

(Japanese Iris.)

Japanese Iris fall naturally into two groups—those in which the three outer segments or falls are large and grow downwards, the inner segments or standards being small and upright ; and those in which the outer and inner segments are of equal size, giving the flowers a round and symmetrical form, such flowers being termed “duplex.” It is impossible by verbal description to give an adequate idea of the beautiful colours of these flowers. At the base of the segments in most of the varieties is a yellow or orange blotch or eye, contrasting most beautifully with the ground color of the flower.

Iris Kæmpferi grows most successfully as a marsh or half aquatic plant. The soil should be rich, deep and moist, and when the weather is very dry, the plants should be kept well watered. A slight shade from the hot sun is necessary, and lengthens the season of flowering.

Magnificent named Varieties from 12/- to 24/- per doz.

Mixed strong flowering plants, 7/6 per doz.

In many fine varieties, see Bulb Catalogue, free on application.

Iris Germanica.

IRIS GERMANICA

(German Iris).

Although one of the commonest and longest cultivated of garden plants, the German Iris still holds a prominent place on account of the many useful purposes for which it can be effectively employed in garden decoration, and the surprising range of colours into which it has sported. Among these flowers may be found the most varied shades of blue, yellow, white and claret, as well as many beautiful marbled and mottled forms. The plants are of easy cultivation, and are admirably adapted for shrubbery borders, wild gardens, woodland walks, and the margin of lakes, &c. They are valuable also as cut flowers, some of the varieties being very sweetly scented.

In the descriptions, **S.** is used to signify the standards or the erect segments : **F.** falls or drooping segments.

Virginie , (s.) soft blue ; (F.) violet-blue with bright orange beard	9d.

Veitch's Beautiful Pæonies.

DOUBLE PÆONIES.

The cultivation of these beautiful plants presents no difficulties.

They flower freely in the months of May and June.

The flowers are on stout footstalks, well displayed above the foliage, bold and striking, often immense size and perfectly double.

If cut young and the stalks placed in water, the flowers will continue to expand and last in full beauty for several days.

We grow a large collection of Pæonies at our Langley Nursery, see Second Page of Cover.

Panorama, chrome-yellow, purple stripe

Phœbus, bright yellow
Purpurea plena, very deep crimson
Van Dyke, yellow striated with red
Vase d'Or, bronzy yellow
Velours Pourpre, very dark purple
Vesuvius, crimson shaded yellow
Victor Lemoine, vermilion, yellow striation
Wm. Rollisson, scarlet shaded orange
Zingari, crimson, yellow edge

For Species of Potentillas see page 43.

PYRETHRUMS.

The double and single varieties of the Caucasian *Pyrethrum roseum* are among the most beautiful of summer-flowering perennials. Mr. Robinson truly remarks that "they have much to recommend them, they are extremely showy, very hardy, easy to grow and invaluable as cut flowers for several months in summer and autumn, as they last so persistently and are little affected either by sun or rain. They are also invaluable for autumn decorations, for if cut down after flowering in June they flower again three months afterwards." They can be grown in almost any soil, their pretty fern-like foliage rendering them handsome border plants even when out of flower. We strongly recommend that Pyrethrums should be planted about the end of April, or early in August.

SINGLE PYRETHRUMS.

6/- and 9/- per dozen, except where otherwise priced.

Ablanus, cerise each.
Abrupolius, pink
Acelum, clear rose
Albert Victor, crimson, large flower. A.M. 9d.

Hamlet , a lovely shade of rose	9d.	Princess of Wales , flesh colour	
James Kelway , cardinal scarlet, very fine. A.M.	1/-	Rev. W. Cuff , pale pink	
Jubilee , bright crimson	9d.	Roseum , rose pink, very free bloomer	
Lord R. Churchill , crimson		Sir Hugo , pink	
Lorna Doone , rich maroon		Tasso , brilliant crimson-scarlet	9d.
Margaret Moore , delicate blush, large flower. A.M.		Vivid , amaranth, striking colour	1/-
Merry Hampton , crimson	9d.	Warrior , deep carmine purple	
Millicent , pure white			

DOUBLE PYRETHRUMS.

6/- and 9/- per dozen, except where otherwise priced.

Aphrodite , white, one of the best ; vigorous grower. F.C.C.	each	Maud , flesh colour	each
Captain Nares , light crimson		Mdlle. Benard , delicate rose-pink	
Carl Vogel , pure white. A.M.		Melton , vivid fiery-scarlet	1/6
Cleopatra , yellow and white, per- fect form	1/-	Michael Büchner , rose crimson	
Déesse , bright pink		Minerva , rose	
Delicatum , lilac-peach		Model , crimson	
Figaro , pale purplish-carmine. A.M.	1/-	Monsieur Barrel , maroon-crimson	
Florentine , blush. F.C.C.	1/-	Mont Blanc , white	
Gustave Heitz , deep flesh		Mrs. Dix , blush	
Haage et Schmidt , bright rose- crimson, centre rose		Multiflorum , crimson, orange centre	
Hobart Pasha , maroon ; a fine variety		Nemesis , red toned with orange	
Imbricatum plenum , dark rich carmine, edges of petals white		Ne Plus Ultra , soft rose, very large	
Iturbide , pale crimson, light centre		Perfection , pale pink	
J. N. Twerdy , crimson, tipped with golden-yellow		Pericles , pale flesh, orange centre. A.M.	1/-
King Oscar , brilliant scarlet, very fine		Princess Charlotte , deep lilac	
Lady Blanche , flesh pink		Princesse de Metternich , pure white	1/6
Lady Derby , pale rose		Prince of Teck , crimson	
La Vestale , pale pink, large		Progress , crimson, brown centre	
Leonard Kelway , rose, fine form	1/6	Pyrethrum Queen Mary , double flowers of a lovely shade of soft pink shading into salmon	2/-
Lord Rosebery , brilliant scarlet, extra fine	1/6	Queen Sophia , flesh-pink	1/-
Madame Mussin , rosy lilac		Roseum plenum , rose-pink	
Magician , pink, tipped with yel- low. F.C.C.	1/-	Rev. J. Dix , pink, white centre	
Marchioness of Lorne , bright rose very fine		Sambanburgh , pure white	
		Shotover , lovely pink	
		Spectabile , bright pink	
		Virginale , white, lemon centre	
		Virgo , creamy-sulphur, beautifully quilled	1/-

Saxifraga longifolia, *Arabis* and *Helianthemum* on a Rockery.

SAXIFRAGAS.

A beautiful genus of Alpine plants of easy culture.

12 Saxifragas in 12 fine varieties (our selection) 5/-

12 Saxifragas in 12 choice varieties

7/6

	each		each
* aizoides , pale yellow, dotted red, likes moisture	9d.	† Burseriana major , snowy-white large	1/6
† Aizoon notata , white flowers, silvery margined leaves	6d.	Bucklandii , a neat carpet plant	6d.
† intacta	6d.	* cæspitosa , mossy growth, studded with white blossoms	6d.
minor , pretty dwarf variety	6d.	* hirta , white flowers	6d.
† lutea , a beautiful Rockfoil, primrose-yellow flowers	1/6	capillaris , white flowers	6d.
† rosea , a beautiful encrusted <i>Saxifrage</i> , bright pink, purplish-coloured stems. A.M.	1/6	† carinthiaca , white flowers	6d.
Andrewsii , white, pink spots	6d.	* ceratophylla , large leaves	6d.
apiculata , primrose-yellow	9d.	* Olibranii , large deep crimson	9d.
† aretoides , covered in spring with golden-yellow flowers	1/6	† cochlearis , white flowers	9d.
* bronchialis , cream-coloured, dense and compact	9d.	† minor (<i>valdensis</i>), white flowers	1/-
† Burseriana , large white flowers, dwarf habit, an exquisite species. F.C.C.	9d.	† crustata , white flowers in erect panicles	9d.
gloria , a fine form of the old type with white flowers over an inch in diameter. A.M.	3/6	* densa , white flowers	6d.
		* decipiens Bathoniensis , the best of the red mossy <i>Saxifragas</i> . Deep crimson flowers one inch in diameter, borne in sprays. A.M.	1/-
		Elizabethæ , soft sulphur-yellow	1/-
		Fortunei , flowers white	1/-
		* geranioides , leaves in rosettes, small flowers, white	6d.

* denotes mossy and creeping varieties.

† „ incrusted varieties.

SAXIFRAGAS—(continued).

	each		each
Geum dentata , white, spotted like <i>London Pride</i>	6d.	* muscoides atro-purpurea , dense masses of red-purplish flowers; very effective	9d.
granulata , fl. pl., double white	6d.	* Rhoei superba , deep rosy-pink, large flowers	6d.
† Griesbachii , purplish-crimson, a charming species. F.C.C.	3/6	† mutata , yellow, purple centre	1/-
* Guildford Seedling , bright crimson	6d.	† nepalensis , white flowers	9d.
* Haworthii , mossy section, white flowers	6d.	* oppositifolia , rose-purple	9d.
~ hibernica , (<i>decipiens Sternbergii</i>)	6d.	* alba , white	6d.
† Hostii , white; encrusted foliage	9d.	* coccinea , bright crimson. A.M.	1/6
* hypnoides , carpets of the freshest green; suitable for rockery or level ground	6d.	Latina , rosy pink with very small compact foliage, very distinct	1/6
† incrustedata , white flowers, foliage edged with white	6d.	major , large fls.	9d.
† incurvifolia , white flowers	6d.	† pectinata , (<i>Aizoon major</i>), rosette leaves margined with silver; flowers white	9d.
juniperifolia , yellow flowers, a handsome species	1/-	peltata , pink flowers in roundish heads, large peltate leaves, 2 to 3 ft., shady situation	9d.
† Kolenatina , pink, one of the best	1/-	* pulchella , very neat and pretty	9d.
lilacina , flowers rosy lilac, a very rare species from the Himalayas	5/- & 7/6	† pyramidalis , large dense panicles of whitish blossoms, useful pot plant	6d. & 9d.
† lingulata lantoscana , drooping panicles of white fls., spotted with rose	9d.	rotundifolia , (<i>lasiophylla</i>), panicles of white fls., dotted with scarlet	9d.
superba , white flowers. F.C.C.	1/6	Salomonii , beautiful large white flowers	1/-
† longifolia , leaves arranged in rosettes, often 8 to 10 inches in diameter; fls. white, borne on a foot-stalk 1 to 2 ft. in height; the best of the silver section. F.C.C. See illustration p. 82	1/- & 1/6	sancta , bright yellow flowers	9d.
† McNabiana , flowers white with carmine spots very large. F.C.C.	1/-	* Stansfieldii , mossy growth; flowers white	1/-
		umbrosa , (<i>London Pride</i>), 4/- doz. ;	6d.
		* Wallacei , (<i>Camposii</i>), large white flowers; very useful for cutting. F.C.C.	6d.

For *Megasea* (*Saxifraga*) see page 37.

VIOLAS or Tufted Pansies.

(TRICOLOR OR BEDDING VARIETIES.)

Great brilliancy and variety of colour. Remain in flower for many months, useful as edgings for herbaceous and other borders.

3d. each; 2/6 per dozen; 15/- 100 (our selection).

Abbess, blue on grey ground, yellow eye
Accushla, pure white, margin of rich purple

Admiral of the Blues, deep blue, rayless

Amy Barr, dark pink

Angler, purple-blue

Archie Grant, indigo-blue; a large and well-formed flower. A.M.

Ardwell Gem, sulphur-yellow

Belfast Gem, pale heliotrope, on cream ground

Blanche, large cream-white

Blue Gown, blue self

Blue Tit, blue, very dwarf

Bridal Morn, heliotrope-blue, rayed

VIOLAS—(continued).

Bullion, bright yellow, rayed in the centre
Cliveden Blue, one of the best blues for bedding
Councillor Waters, crimson-purple
Countess of Hopetoun, pure white
Countess of Kintore, purplish-blue edged white
Dove, cream-white, picoteed heliotrope
Duchess of Fife, yellow, edged blue, very pretty
Duncan, dark bluish-mauve self, slightly rayed
Florizel, pale lilac
Gen. Lord Roberts, cream-white with heliotrope border; rayless
Goldfinch, yellow edged with light purple
Jackdaw, soft purple, large yellow eye
J. B. Riding, deep mauve. A.M.
John Quarton, light mauve self

Lady Warwick, rosy-purple
Lord Elcho, yellow
Maggie Mott, mauve, very free-flowering
Marchioness, cream self. A.M.
Mrs. Chichester, white ground, mottled with purple, slightly rayed
Ophir, creamy-white, edged deep lavender
Peace, creamy-white, tinted heliotrope
Rolph, grey-blue self
Seagull, white
Sunbeam, cream-yellow, edged lilac
Swan, rayless white self
Sylvia, pale primrose
The Mearns, plum-purple and white
True Blue, deep blue
White Empress, pure white
Wm. Neil, pale rose. A.M.
Yellow Beauty, yellow self, rayless

And many other varieties.

The ordinary Bedding Violas—blue, purple, yellow and white can be supplied at 12/6 100.

HARDY FERNS.

An outdoor Fernery is particularly interesting and always forms an attraction in every garden. A shady position useless for the cultivation of flowering plants is easily transformed into luxuriant verdure, which when once established requires very little attention to keep in order. Except in exposed positions October is the best time for constructing a fernery. We have enumerated in the following list only those ferns that will thrive well without protection. We shall be pleased to select collections to suit all requirements.

50/- to 75/- per 100.

Adiantum , creeping rootstocks, fronds pinnately divided, slender stalks	Each
pedatum , (American Maidenhair Fern)	1/6
Capillus Veneris (Maidenhair Fern)	1/-
magnificum	1/6
Allosorus , dense tufts of pale green fronds	
crispus , (Mountain Parsley Fern)	1/-
Aspidium , tufted evergreen ferns with pinnate fronds	
Clintonianum	1/6
cristatum	1/6
munitum	1/6
Noveboracense	1/6
spinulosum Boothii	1/6
thelypteroides	1/-

HARDY FERNS—(continued).

Each

Asplenium (Spleenwort), short tufted rootstocks simple or compound fronds, mostly evergreen	
Adiantum nigrum (Black Spleenwort)	9d.
angustifolium	1/6
ebeneum	1/-
crispum	1/6
fontanum	1/6
lanceolatum	1/6
marinum (Sea Spleenwort)	9d.
crispum	2/6
Ruta-muraria (Wall Rue Spleenwort)	1/-
septentrionale (Forked Spleenwort)	1/6
thelypteroides	1/6
Trichomanes (Black Stemmed Spleenwort)	9d.
viride (Green Stemmed Spleenwort)	9d.
Athyrium , stout rootstock, bright green deciduous fronds, 1 to 5 feet long, some of the finest hardy ferns	
Felix-fœmina (Lady Fern)	6d.
americanum	1/6
Goringianum	1/6
Michauxii	1/6
Blechnum , stout creeping rootstock, spreading bright green pinnate fronds about 1 foot high, evergreen	
spicant (Hard Fern)	6d.
Ceterach , deep green fronds about 6 inches long, pinnately divided	
officinatum (Scale Fern)	9d.
Cystopteris , creeping rootstocks, graceful deciduous fronds pinnately divided, 6 inches high	
alpina (Alpine Bladder Fern)	1/6
fragilis (Brittle Bladder Fern)	6d.
americana	1/-
montana (Mountain Bladder Fern)	1/6
bulbifera	1/-
Dennstaedtia , creeping rhizomes, elegant broad finely divided fronds 1 to 1½ feet long, deciduous	
punctiloba	1/6
Lastrea , bright green deciduous fronds 1 to 2 feet long	
æmula (Hay-scented Buckler Fern)	6d.
cristata	1/6
dilatata (Broad Buckler Fern)	6d.
Felix-Mas (True Male Fern)	6d.
Goldieana	1/6
intermedia	1/6
montana (Mountain Buckler Fern)	6d.
pseudo-Mas (Hard Male Fern)	9d.
cristata (King of Male Ferns)	1/-
Lomaria , creeping rootstocks, tufted fronds about 6 inches long	
alpina	1/6
crenulata	2/6
Onoclea , widely creeping rootstock, deciduous fronds one foot long	
sensibilis (Sensitive Fern)	1/6
Osmunda , densely branched rootstocks, graceful fronds of leathery texture, particularly suitable for damp situation	
cinnamomea	1/6
Claytoniana	1/6

Water Plants.

HARDY FERNS—(continued).

Osmunda, gracilis	Each
regalis (Royal Fern)	1/6
cristata	1/-
Phegopteris , light green fronds of soft texture about 6 inches long	1/6
hexagonoptera	1/6
Polypodium , creeping or tufted rootstocks, evergreen fronds about one foot long	
vulgare (Common Polypody or Adder's Fern)	6d.
cambricum (Welsh Polypody)	1/6
trichomanoides	1/6
Polystichum , tufted evergreen ferns, fronds dark green about two feet long	
achrostichoides	1/6
aculeatum (Hard Shield Fern)	6d.
angulare (Soft Shield Fern)	9d.
Braunii	1/-
lonchitis (Holy Fern)	1/6
munitum (Californian Shield Fern)	1/6
Scolopendrium , short stout rootstocks, tufts of bright green foliage, some varieties have exquisitely crested fronds	
vulgare (Hart's Tongue Fern)	6d.
crispum	1/-
cristulatum	2/6
grandiceps	1/6
Kelwayi	1/-
Struthiopteris , fronds broadly lance-shaped, much divided	
germanica (Ostrich Feather Fern)	1/6
Woodsia , dwarf tufted ferns with pinnate fronds	
alpina (Alpine Woodsia)	1/6
ilvensis (Oblong Woodsia)	1/6
obtusa	1/-
Woodwardia , bright green fronds nine inches long, borne on slender stalks	
angustifolia (Netted Chain Fern)	1/6

WATER PLANTS.

Suitable for Lakes, Ponds, Tubs and Aquariums.

All enumerated in the following list are hardy except those marked (*) which do best with shelter. Those marked (†) are for shallow water, whilst the remainder can be grown in water varying in depths from 1 to 3 feet (April to June is the best time for planting.)

We shall be pleased to give advice in connection with Bog and Water Garden.

12 distinct varieties	} our selection.	5/-	7/6	&	10/-
24		15/-	21/-	&	25/-

- † **Alisma natans**, an effective floating plant with pretty white flowers 6d.
- † **Plantago**, heads of white flowers very graceful height 4 ft. 6d.
- † **Aponogeton distachyon**, this is not only hardy, but wonderfully free blooming for small Aquariums, as well as streams or pools. Its fragrance is most refreshing, reminding one of Hawthorn 1/6
- * **Azolla caroliniana**, a pretty miniature, floating fern-like growth like moss on the surface of the water turning purple with age 2/6 per doz. 3d.
- † **Brasenia peltata** (Water Shield) small coppery peltate foliage and brownish purple flowers, very pretty 1/6

WATER PLANTS—(continued).		Each
† Butomus umbellatus (The Flowering Rush), bright pink, numerous flowers, in large heads, with rush-like green leaves, height 5 feet		9d.
† Calla palustris (Water Arum) white flowers, bright green leaves height 9 in.		1/-
† Echinodorus ranunculoides , a neat plant for shallow water		6d.
Hottonia palustris (Water Violet) submerged fern-like plant with showy white flowers and bright green foliage		6d.
Hydrocharis Morsus-ranæ (Frog Bit) a floating plant with pretty white flowers (plants in May)		6d.
* Limnocharis Humboldtii , distinct in character from any of our native plants, rich golden yellow flowers, beautifully fringed, one of the most exquisite in cultivation		1/-
† Menyanthes trifoliata (Bog Bean) a free growing plant, pink and white hairy fringed flowers, resembling the flowers of the Horse-Chestnut		9d.
* Myriophyllum proserpinacoides (Green Feather) elegant and graceful leaves		9d.
Nuphar advena (the large Water Lily of America), large yellow flower, red inside, very robust		2/6
luteum (Common yellow Water Lily)		1/-
† minor , very small leaves, flowers deep yellow and numerous		1/6
Kalmianum , light green cordate leaves, small yellow flowers with red carpels		1/6
Nymphæas (see Special list) free on application.		
† Orontium aquaticum (Golden Club) golden yellow flowers, in early summer height 18 inches		1/6
† Peltanda virginica , large arrow-shaped foliage, white spadix		1/6
† Pontederia cordata , free flowering, about 2 ft. high, tall tufts of heart-shaped leaves with spikes of closely set blue flowers		1/6
† montevidensis , resembling <i>P. cordata</i> , but more vigorous in growth, longer foliage and larger deep blue flowers		3/6
Potamogeton crispus , green strap like leaves with undulated edges, small red flowers		6d.
Ranunculus circinatus (Water Crow's foot) small white flowers		6d.
Lingua , large showy yellow flowers about 2 to 3 feet above the water, narrow glaucous lance-shaped leaves		9d.
grandiflorus , stronger and flowers much larger than above		1/-
† Rumex Hydrolapathum (Giant Water Dock) gigantic leaves, very conspicuous		1/-
† Sagittaria gracilis (Arrow Head) white flowers with brown blotches		9d.
japonica , large single white flowers		1/-
fl. pl. , immense double white flowers, one of the most lovely of all the Aquatics, quite hardy, and very easily grown, increasing rapidly in almost any position		2/-
† sagittifolia (Common Arrow Head) flowers white with dark coloured anthers		6d.
† variabilis , leaves either entire or sagittate, numerous white flowers		9d.
Stratiotes aloides (Water Soldier) a pretty floating Aquatic with spiny Pandanus like leaves and pure white flowers		9d.
† Typha angustifolia (Lesser Reed Mace or Cat's Tail) a tall slender species with brown leaves and chocolate coloured heads		1/-
† latifolia (Great Reed Mace) well known native plant of fens and rivers, grows 6 to 8 feet high		9d.
† minima , a dwarf scarce species, 12 to 18 inches		1/6
* Vallisneria spiralis (Tape Grass) long tape-like floating leaves and white flowers		9d.
† Veronica Beccabunga , a rapid growing plant with spikes of bluish flowers height 1 ft.		6d.
† Villarsia nymphæoides , peltate leaves and myriads of yellow flowers		9d.
† parnassifolia , Parnassia-like leaves and small yellow flowers on branching stems about 2 ft. in height, very free flowering		1/6

BOG PLANTS.

Only the most suitable plants for margins of lakes, bogs and damp places, are to be found in the following list, and we shall be pleased to make selections to suit any requirements.

12 varieties our selection 5/-, 7/6 and 10/6.

Acorus Calamus (Sweet Flag), long green foliage, yellow aromatic flowers	Each.
gramineus , leathery evergreen leaves, dwarf habit	6d.
fol. var. , green foliage with white margin	1/-
japonica argentea striata , leaves striped with white	1/-
Arundo Donax (The Great Reed), an ornamental Bamboo-like grass, growing 10 to 12 feet high	1/6
fol. var. , fine green foliage striped with white	1/6
mauritanicus , broad foliage with yellow variegation	1/-
Astilbe , see page 13	
Bamboos , see Catalogue of Hardy Trees and Shrubs.	
Caltha palustris ,	} see page 14.
fl. pl.	
Cardamine pratensis fl. pl. , see page 16.	
Carex japonica fol. var. , a vigorous growing evergreen grass	6d.
Cyperus longus , long graceful foliage, large heads of brown spikelets	6d.
Cypripedium pubescens ,	} see page 19.
spectabile ,	
Dodecatheon , see page 23.	
Epilobiums , see page 24.	
Funkias , see page 26.	
Gentiana Pneumonathe , see page 27.	
Andrewsii ,	} see page 26.
Asclepiadea ,	
Gunnera manicata ,	} see page 27.
scabra	
Hellonias bullata , deep green foliage, rosy lilac flowers in spikes	1/-
Hemerocallis , see page 31.	
Iris Kaempferi , see page 69.	
Pseudacorus , see page 67.	
var. , see page 67.	
Juncus effusus aureus striatus , golden striped Rush	9d.
lacustris , strong growing thick quill-shaped leaves	9d.
spiralis , curiously twisted leaved	9d.
Lythrum roseum superbum , see page 37.	
virgatum , see page 37.	
Lysimachia clethroides , see page 37.	
Monardas , see page 38.	
Myosotis palustris semperflorens (Water Forget-me-not)	6d.
Osmunda regalis , see page 87.	
Parnassia palustris , see page 40.	
Polygonum Sieboldii , heart-shaped leaves and racemes of white flowers	9d.
Primula japonica , see page 45.	
rosea grandiflora , see page 46.	
Rodgersias , see page 48.	
Saxifraga peltata , see page 83.	
Scirpus lacustris Tabernæmontani zebrinus , very elegant, leaves alternately barred with white and green	1/-

BOG PLANTS—(continued).

Each.

Senecios, see page 51.

Solidago, see page 52.

Spigelia marilandica, see page 52.

Spiræas, see page 52.

Symplocarpus foetidus, curious brown Arum-like flowers 1/6

Trollius, see page 56.

HARDY ORNAMENTAL GRASSES.

These Perennial Grasses can be utilized with excellent effect as specimens on lawns, or for sub-tropical planting and are particularly graceful when established in the neighbourhood of Water Gardens. We shall be pleased to select, from the following list, collections to suit all requirements.

- Apera arundinacea**, (Pheasant's Tail Grass) elegant gracefully arching panicles borne on stems 6 ft. high 1/6
- Arrhenatherum bulbosum fl. var.**, a neat variegated grass for permanent edgings 1 ft. high 1/-
- Arundo conspicua**, (Silvery Reed Grass) drooping racemes of silky white flowers 1/6&2/6
- Donax**, (Great Reed) stems 10 to 12 ft. high clothed with glaucous green lance-shaped leaves 1/6&2/6
- variegata**, a white variegated form of dwarf habit rarely exceeding 3 ft. 2/6&2/6
- macrophylla glauca**, foliage larger and more glaucous than *A. Donax* 2/6
- mauritanica fol. variegata**, resembles *A. Donax* except in foliage which is long and narrow 1/-
- Carex gallica, fol. var.**, dwarf yellow variegated foliage 1/-
- japonica fol. var.**, a vigorous growing variegated Sedge, suitable for edging or pot culture 6d.
- Morrowii**, a species with fine variegated foliage about 18 inches high 9d.
- pendula**, graceful plumes borne on stems 5 ft. high a fine evergreen foliage plant 6d.
- riparia fol. var.**, graceful variegated foliage about 3 feet high 6d.
- Cyperus longus**, (Galingale) a species with long graceful foliage, height 3 feet 6d.
- Dactylis glomerata elegantissima**, silvery striped leaves, particularly suitable for edging. 5/- per doz. 6d.
- aurea**, light green foliage with yellow margin, good for edging. 5/- per dozen 6d.
- Dulichium spathaceum**, strong growing and Reed-like 6d.
- Elymus glaucifolius**, beautiful blue-grey foliage about 4 ft. high 1/-
- Erianthus Ravennæ**, tufts of gracefully arching leaves with purplish plumes borne on stems 4 ft. high 1/6
- Eriophorum angustifolium**, (Cotton Grass) white silky tufts on thin stems 9 inches high, long narrow foliage 6d.
- Eulalia japonica**, elegant arching leaves on canes 6 ft. high, purplish plumes in summer 1/6
- variegata**, striped with white and green 1/6&2/6
- zebrina**, transversely banded with yellow, very distinct 1/6
- Festuca glauca**, glaucous-blue leaves in dense dwarf tufts 6d.
- Glyceria spectabilis, fol. var.**, handsome foliage with silver and gold stripes height 1 ft. 1/6
- Gymnothrix latifolia**, gracefully drooping lance-shaped leaves on stout canes 5 to 6 ft. high 1/6
- Gynerium argenteum**, (Pampas Grass) glaucous green arching leaves, forming dense tufts. The feathery plumes are very conspicuous lasting several months 1/6&2/6
- carneum**, a fine variety with rose-coloured plumes 2/6

HARDY ORNAMENTAL GRASSES—(continued).

	Each.
Holcus lanatus albo variegatus , tufts of soft downy leaves with silvery white variegation 12 inches high	6d.
Miscanthus saccharifera , green foliage 3 to 4 feet high	6d.
Molinia cœrulea variegata , dwarf variegated foliage useful for edging	6d.
Phalaris elegantissima , tufts of bright variegated foliage 1½ feet high	1/-
Stipa pennata (Feather Grass), very light and graceful for decorative purposes, about 2 ft. high	9d.
gigantea , a taller growing form	1/- & 1/6

PLANTS SUITABLE FOR BEDDING.

Of dwarf habit and in many cases bright variegated foliage, the plants enumerated below are suitable for edging of herbaceous borders or as ground work of carpet bedding.

	Price per 100.
Acænas , in variety, blue grey foliage	35/-
Achillea tomentosa , masses of yellow flowers	35/-
Ajuga reptans atropurpurea , bronzy red foliage	20/-
variegata , variegated foliage	20/-
Alyssum saxatile citrinum , lemon yellow flowers	30/-
compactum , masses of golden yellow flowers	20/-
variegatum , leaves margined with yellow	40/-
Antennaria tomentosa , grey foliage	20/-
Arabis albida , white flowers	20/-
fl. pl. , double white flowers	20/-
variegata , variegated foliage	20/-
Arenaria balearica , dense tufts of foliage	30/-
caespitosa , small white flowers	30/-
Cerastium arvense compactum , white flowers	20/-
Bierbersteinii , grey foliage	20/-
tomentosum , grey foliage, white flowers	20/-
Dactylis glomerata aurea , yellow variegated grass	20/-
elegantissima , white variegated grass	20/-
Dianthus deltoides , pink spotted flowers	25/-
albus , white flowers	25/-
Gypsophila repens , flowers white or rose	30/-
Herniaria glabra , very bright green foliage	30/-
Lysimachia nummularia , bright yellow flowers	20/-
aurea , yellow leaved variety	35/-
Saxifragas (Mossy), white, rose or crimson	30/-
Sedum acre , bright yellow flowers	20/-
aureum , yellow foliage variety	30/-
album , white flowers	20/-
glaucum , greyish foliage	25/-
lydium , pink flowers	25/-
Thymus citriodorus argenteus , silver variegated leaves	20/-
aureus , golden variegated leaves	20/-
lanuginosus , soft grey foliage	25/-
Serpyllum , in variety, white, red, purple	30/-
Veronica incana , deep blue flowers	30/-
repens , pale blue flowers	30/-
Teucrium dubia , brilliant blue flowers	35/-

LABELS FOR HERBACEOUS PLANTS.

We shall be pleased to supply Stratford Metal Labels as per illustrations.

2½d. each.

Herbaceous Label No. 1.

Full Size.

Herbaceous Label No. 2.

12 inch wire standard.

When sending List of Plants for Labels please state whether No. 1 or No. 2 Label is required.

The Labels take some time to manufacture, but they will be put in hand immediately on receipt of order.
